No. 198—FIFTY-NINTH YEAR | VICTORIA, BRITISH COLUMBIA, SATURDAY, JULY 28, 1917 | PRICE FIVE CENTS

MANY SERVICES GIVEN BY BRITAIN'S SHIPPING

Premier Lloyd George, Lord Robert Cecil and Mr. MacNamara Make Statements in Regard to Its Diversion From Mercantile Purposes and to Submarine Warfare

Merchant Navy Totals Over 15,000,000 Tons

War Requirements and Services to Allies Make Heavy Calls—Arming of Vessels Is Proceeding—Premier Gives Summary of British War Work

PARIS, July 27.—Mr. David Lloyd George, the British Premier, today gave a breakfast to a number of editors of important French newspapers, during which he conversed fully with them on the military situation and replied to questions.

The Temps this afternoon gives a summary of his talk.

Mr. Lloyd-George said that Great Britain now had between 5,000,000 and 5,500,000 soldiers enrolled, without counting between 400,000 and 500,000 belonging to the Navy or nearly a million men from the Dominions and colonies.

Great Britain has placed at the disposition of her Allies, he added, from 1,500,000 to 2,000,000 tons of merchant ships. Next year's building programme for merchant ships, which already has begun, amounts to 4,000,000 tons, or twice as much as in a good year during peace times.

LORD ROBERT CECIL

Losses Diminish

Alluding to the campaign against submarines, Mr. Lloyd George said:

"The diminution in shipping losses is incontestible. It is impossible to abandon the subject without paying homage to the aid given by the American Navy, both regarding the organization of convoys and by torpedo-boat destroyers, which had rendered an invaluable service."

Continuing, Mr. Lloyd-George said that 5,000,000 men and women were now engaged in war work in the United Kingdom. More women could be employed if the trades unions did not fear their competition after the war, but other countries seemed to have experienced the same difficulties. It would be said that at the present time no English industry is working for individual interest except agriculture.

Although the English people sincerely hoped that the present war would be the last war, Mr. Lloyd-George continued, the country intended to avoid its previous error, and in the future would be able to support itself. He said he recognized that the latest news from Russia was not good news, but that Russia already had shown that she possessed infinite resources and was the land of the unexpected.

Arming Merchant Vessels

Three hundred British merchant vessels already have been armed, and a large number are being armed each week, said T. J. Macnamara, Financial Secretary to the Admiralty, in reply to a question in the House of Commons today. He added that the Government was making great efforts to get a maximum number of merchantmen armed as soon as possible.

Lord Robert Cecil's Statement

Lord Robert Cecil, the Minister of Blockade, discussed the shipping situation at length with the Associated Press today touching on the sacrifices incurred by Great Britain owing to the obligations imposed upon shipping as a result of the war.

"Ocean-going vessels of British registry before the war were between 17,000,000 and 18,000,000 tons," he said. "At present the total, inclusive of prizes and new ships, is slightly over 15,000,000 tons.

"The country generally has had to suffer great and increasing sacrifices through the shortage of tonnage caused by war requirements and submarine losses," continued Lord Robert Cecil.

"I wish particularly to point out how we have sacrificed ruthlessly the needs of industry and commerce to war requirements."

Lord Robert said that about 6,500,000 tons of British merchant shipping now had been detailed to the navy and army, the Allies and the Dominions, while a further 1,000,000 tons were being used similarly on the outward journey, and, therefore, were lost to the export trade.

Varied Services

"The services rendered by these ships are varied," said Lord Robert. "Some of the speediest and most efficient of them have been converted into auxiliary cruisers and others into hospital ships. Many of them are engaged in taking coal and oil to the navy; others constantly are carrying troops and supplies to the army and navy; others are engaged in mine-sweeping and patrol work; others are assigned to our Allies to supply urgent needs for munitions and other imports, and others are carrying wheat and other foodstuffs to our Allies.

"From the beginning of the war, the British ships have been requisitioned on a large scale by the Government and run in national instead of private interest. The rates paid to shipowners soon became much lower than could be earned by free ships, and British owners therefore were unable to earn the same freights as competitors. Now the situation has reached a stage at which it has been necessary to take complete control of all British shipping, first to ensure the employment of every vessel in the manner most consistent with the national interest, and second to divert from private pockets to the national treasury the high freights prevailing."

ITALIAN PATROLS ARE SUCCESSFUL

Engage in Minor Attacks Along Trentino Front—Enemy Attempts Are Checked

ROME, July 27.—Today's official statement on military operations on the Austrian front reads:

"At Malgasures, east of Lake Garda, and in the Cordevole and upper Boite valleys, our patrols successfully engaged in minor attacks.

"Attempts by the enemy detachments at the head of the Dogna Valley, on Mount Rombon, and at Dosso Faiti we repulsed by our advanced hosts.

"The artillery duel, which was not very active on the Trentino front, continued violent yesterday at certain points on the Julian front, especially at Dosso Faiti and Castagnievizza."

GERMAN SUBMARINE MEETS DESTRUCTION

Stranded on French Coast and Set on Fire by Crew—Latter Captured by Belgians

PARIS, July 27.—A German submarine was destroyed on Thursday on the French coast west of Calais. The undersea boat went ashore and the crew, unable to free her, opened the gasoline tanks and set fire to the vessel. The members of the crew reached the shore, where they were made prisoners.

The Belgian official report says:

"A Belgian detachment has captured the crew of a German submarine stranded on the shore."

WOMEN'S BATTALION SHAMES DESERTERS

Mlle. Vera Butchkareff and Her Corps Attack Germans When Cowardly Men Flee

LONDON, July 27.—A dispatch to the Exchange Telegraph from Petrograd, dated Thursday, says:

"Ensign Mlle. Vera Butchkareff, commander of the Russian women's battalion, and Lieut. Saryditeva, suffering from shock as a result of bursting shells, and about a dozen other members of the battalion who were wounded during the recent fighting, have been sent to Minsk. When they reached Poltava, they were welcomed by 100,000 civilians and soldiers. It is said the women attacked the Germans after the Russian male soldiers had deserted, rushing forward impetuously and firing their rifles with deadly effect. Their German prisoners were greatly chagrined when they learned the sex of their captors."

Two Japanese Steamers Sunk

NEW YORK, July 27.—The Japanese freight steamer Kagoshima Maru, 4,566 tons gross, an dthe Shigozan Maru, a vessel of 2,527 tons gross, were sunk by German submarines in the Atlantic Ocean on June 20, according to cable advices received here by the Marine Underwriters' Association. The crews of both vessels were saved.

MINISTER TAKES HIS PLACE AGAIN

Hon. Robert Rogers Returns to Department of Public Works—Discussion of Soldiers' Insurance Premiums

OTTAWA, July 27.—The House of Commons did a good day's work on the bill to revise the Insurance Act and the estimates of the Department of Public Works.

The report of the Tellier-Macleod Commission, exonerating Hon. Robert Rogers in respect of the findings of Mr. Justice Galt, of Winnipeg, relative to the Agricultural College inquiry, was tabled at 6 o'clock by Hon. C. J. Doherty, Minister of Justice. At 8 o'clock, when the House resumed with the purpose of considering the estimates of the Public Works Department, Mr. Rogers resumed his post as Minister of Public Works and piloted the votes through the House. The items voted were largely for wharves and other public works in the Maritime Provinces.

The discussion on the insurance bill was almost entirely of a technical character.

Sir Thomas White, Minister of Finance, announced that the Department of Finance had considered the proposal made by Mr. Lemieux to arrange for the payment of excess premiums on policies held by men sent to the front.

Sir Thomas said that the plan was impracticable because under the Military Service Act, some of the men enrolled were insured for large amounts, while others would carry smaller policies. It was therefore impossible to secure uniformity of treatment for the men. He pointed out in connection with the United States insurance for soldiers that it is in lieu of pensions.

Special Jewish Regiment

LONDON, July 27.—The War Office has announced the formation of a special Jewish regiment of infantry with experienced officers in the higher commands. Jewish soldiers with knowledge of the Yiddish or Russian language already serving with the British regiments will be transferred to the regiment. The regimental badge will be a copy of King David's shield.

HON. R. ROGERS IS EXONERATED

Report Submitted by Macleod-Tellier Royal Commission Clears Him of Wrongdoing in Manitoba

CONTRACT DEALINGS QUITE REGULAR

Mr. Justice Galt's Findings, So Far as They Reflect on Honor of Minister, Declared Contrary to Evidence

OTTAWA, July 27.—When the House rose for the dinner recess, at 6 o'clock this evening, Hon. C. J. Doherty, Minister of Justice, tabled the report of the Macleod-Tellier royal commission, appointed some time ago at the request of the Hon. Robert Rogers, to review the evidence taken by Mr. Justice Galt, of Winnipeg, in connection with the inquiry into the construction of the Manitoba agricultural college building. The commissioners' findings are as follows:

(a) That the increase of the Carter Company tender for the power house by $8,700 was recommended by Mr. Hooper, the architect, to Hon. Robert Rogers before he (Mr. Rogers) telephoned to Mr. Carter.

(b) That there was no connection whatever between such increase and the contribution of $7,500 made by the Carter Company to the election fund.

(c) That during the time the Hon. Robert Rogers was Minister of Public Works for Manitoba all the contracts that were let for the Agriculture buildings were properly let.

(d) That the contracts themselves were carefully drawn and properly safeguarded by the Government.

(e) That the payments during the Hon. Robert Rogers' term of office were made only after they had been duly and honestly certified by the proper officials of the department.

(f) That there was no conspiracy between the Hon. Robert Rogers and any other contractor or person.

Mr. Justice Galt's Report

In conclusion, the commission's report says:

(1) That pursuant to the said commission, your commissioners have reviewed and considered the whole of the evidence furnished us as taken by the said Mr. Justice Galt, as said commissioner, and have reviewed and considered his said two reports, and all his findings on such evidence.

(2) And your commissioners further report that such evidence does not sustain or support the findings of the said Mr. Justic Galt, as such commissioner, as set forth in such reports, in so far as they reflect upon or prejudicially affect the honor or integrity of the Hon. Robert Rogers, or the honesty of his dealings or transactions.

On the contrary, your commissioners consider that the reports of Mr. Justice Galt, in so far as they reflect upon the honor or integrity of the Hon. Robert Rogers, or the honesty of his dealings or transactions, are against the evidence.

HERR HEINEKEN IS OPTIMISTIC

Says German Steamship Lines Will in Time Recover Lost Ground—Britain to Be Compelled to Trade

AMSTERDAM, July 27. — Phillip Heineken, director of the North German Lloyd Steamship Line, says in the annual report of the company that the British will be compelled to trade with the Germans, whether or not they like it, but that until this stage is reached German industry, trade and shipping will undergo a hard struggle. Herr Heineken believes that on account of the diminution of tonnage due to the submarine war, high freight rates will prevail for two or three years after the war, with consequent benefits to shipping interests. He predicts that for a time Germany will find it necessary to restrict imports to highly important articles, such as grain and other foodstuffs.

Herr Heineken is of the opinion that if the German Government will give its assistance in this difficult period the ground lost during the war will be retaken.

The North German Lloyd and the Hamburg-American Line, at the request of the German Government, says the report, have opened offices in Poland to enable residents of occupied territory to join their families in America. The offices are at Kovno, Warsaw and Mystowitz. Several hundred persons emigrate from Poland each month. The steamship companies, Herr Heineken says, derive no profits from this work, which is only done in the interests of patriotism. The steamship companies deliver the immigrants to steamships in Holland.

The management of twenty camps for war prisoners has been taken over by the North German Lloyd. The Bremerhaven workshops of the company, Herr Heineken adds, are busy turning out war materials for the Government.

Rumor of Cholera in Germany

COPENHAGEN, July 27.—Persistent rumors reached here today of a cholera epidemic raging in many German cities, particularly Hamburg.

YEAR'S COST OF WAR OVER TEN BILLIONS

United States Will Be Obliged to Raise Enormous Sum by Taxation or Issue of Bonds

WASHINGTON, July 27.—Estimating the cost of the war for the coming year at $10,725,307,000, exclusive of loans to the Allies, the administration informed Congress today that new revenues totalling $7,000,000,000 must be raised from taxation or issuance of securities. If advancement of credit to the Allies is continued at the present rate, the year's total of war expenses will pass $15,000,000,000, and the amount of additional revenue required will increase accordingly.

How Congress will meet the enormous new revenue requirements remains to be determined, but there is a distinct sentiment in favor of offsetting most of the expenditures by bond issues. Many leaders on both sides of the capitol predicted tonight that not more than $2,000,000,000 of the $7,000,000,000 asked would be raised by taxation, and that the remainder might be met partially by bond sales and partially by issuance of treasury certificates of indebtedness.

Cannonade Along Vardar

PARIS, July 27.—Respecting the Balkan front the War Office reports: "Army of the Orient—British aviators have bombed enemy camps in the region of Demir Hissar. A rather violent cannonade is reported on the right bank of the Vardar and between lakes Presba and Ochrida."

MORE CANADIANS ARE DECORATED

Military Cross Is Awarded to Thirty-Eight Men and Bar to One—Several Chaplains Are Included

LONDON, July 27.—Award of a bar to the Military Cross to one Canadian officer and of the Military Cross to thirty-eight officers was gazetted tonight. The names of those decorated follow:

Bar to Military Cross: Captain Harold O. Bennett.

Military Cross: Rev. John MacNeill, Chaplain in the Imperial forces; Majors Harold Buck, Wm. B. Crowther and Alistair Fraser; Captains Arthur C. Armstrong, Geoffrey Burbidge, Harold P. Burrell, Leo. J. Carey, A. Burton; Chaplains W. Gerald Hosbie, William Creighton and Thomas Clive Floyd; Lieutenants Edward Lyman Abbott, William A. Adams, Thorburn S. Alles, Wilfred J. Atherton, James Beaumont, Frederick G. Bond, E. A. Boyle, Joseph Blackman, Richard A. Brown, Robert S. Cameron, James J. Carreso, Edward V. Chambers, Gregory Clark, David Cleland, Percy E. Corbett, Francis G. Cotello, Robert G. Foulkes, Walter Darling, Bernard F. Davidson, Alfred N. Daykin, Frederick W. Derbyshire, Geoffrey Murray Downton, Guilford E. Dudley, Wallace S. Duncan, Douglas M. Ewart and Frederick A. Fraser.

Heat Wave on Prairies

WINNIPEG, July 27.—The heat wave in the Prairie Provinces reached its highest today, and practically every district reported intense heat with no rain. At Regina, the temperature reached 105 degrees in the shade; Moose Jaw and Swift Current reported 100 degrees. Among other points an average temperature of 90 degrees is the official record. The prospects are that the heat wave will continue for the next 24 hours.

General Seely to Wed

LONDON, July 27.—The engagement is announced of Brig.-General Seely to Hon. Mrs. Nicholson, widow of Captain George Nicholson, of the Flying Corps, who was killed in a flying accident here. Mrs. Nicholson is the youngest daughter of Lord Elibank.

WAVES OF TROOPS HURLED AGAINST LINES OF FRENCH

Determined Efforts of Germans to Oust Defenders From Plateaus Near Craonne Bring Them Practically No Gain—Many of Their Men Fall in Attempts

FIVE SUCCESSIVE ATTACKS REPULSED IN CHAMPAGNE

Furious Bombardments Directed Against British, Belgian and French Positions and Country in Rear—British Troops Capture Village and Lose It Afterwards

PARIS, July 27.—The War Office report this morning said:

"Very heavy artillery fighting continued throughout the night on the entire front between Cerny and Hurtebise Farm (Aisne front) with no infantry actions. Supplementary information in regard to the attack carried out by the Germans on July 25 from the region east of Hurtebise as far as the positions south of La Bovelle shows that the enemy made the assault with successive waves of troops amounting to a division. This division was brought to its maximum strength with another fresh division of reserves. The small importance of the results achieved emphasizes the check which the Germans received in this effort.

"In the Champagne the Germans, after an intense bombardment, made five successive attacks in the vicinity of the heights south and west of Moronvilliers. These attacks were broken up by our fire. East of Auberive, after brief but violent artillery preparation, several groups of Germans made a surprise attack. A sanguinary combat followed, as a result of which the enemy left on the ground numerous dead, including one officer.

"The artillery fighting was less violent on both banks of the Mouse."

Violent Cannonading

The War Office statement this evening says:

"Intermittent artillery fighting took place today on the greater portion of the front. The cannonading was especially violent in the sector of Ailles and Hurtebise, in Champagne, in the region of Mont Haut and on both banks of the Mouse.

"Last night a surprise attack by the Germans at Hartmanns-Wellerkopf failed completely under the fire of our mitrailleuses. The enemy left many dead on the ground.

"Belgian communication—During the course of the night the German artillery violently bombarded the environs of Het Sas Steenstraete and Pypegaarde. The enemy directed an intermittent fire on our communications.

"In the morning the German artillery bombarded the regions of Fervyse, Dixmude, Oordecapelle and Nieucapelle. In the afternoon the customary activity of the artillery was resumed. We carried out a counter-attack and a fire of destruction against an enemy observation post."

British Front

LONDON, July 27.—The statemetn from the British headquarters in France tonight reads:

"The enemy artillery was more active than usual during the day in the neighborhood of Armentieres.

"But little flying was possible until the evening, when sharp fighting took place for about two hours. One hostile machine was brought down and another was driven down out of control. Two of our machines are missing."

British troops last night captured La Basse Ville, in Belgium, near the French border, but subsequently withdrew in the face of a German counter-attack in force, the War Office reported earlier today.

Much Shelling

BRITISH HEADQUARTERS IN FRANCE, July 27.—The enemy artillery continued exceptionally active near the Belgian coast last night. Nieuport was heavily shelled and a number of gas shells were thrown on Dunkirk. The British artillery responded vigorously.

Farther down the line the Germans shelled Oost Taverne and the back areas west of Wytschaete, as well as the trenches near Bullecourt and Arras.

Germans Report Successes

BERLIN, July 27.—The official statement reads:

"The artillery duel in Flanders temporarily decreased in intensity yesterday under the influence of unfavorable weather conditions, but rose again to very great intensity in the evening. Renewed and powerful reconnaissances by the British failed everywhere.

"In the Artois the artillery activity revived considerably during the afternoon. During the night raids by enemy reconnoitering parties were repulsed.

"Near Honnecourt, north of St. Quentin, Wurttemberg shock troops brought back a large number of British prisoners as a result of raids.

On the Chemin des Dames, to the south of Ailles, near Hurtebise farm and on the Hochberg, in the western Champagne, the French made futile counter-attacks, suffering heavy losses. The number of prisoners and booty was very considerably increased. In the Allies sector the prisoners captured increased to more than 1,450 and the booty to sixteen machine guns and seventy quick-firing rifles.

"East of Suippes, during a surprise attack upon enemy trench sectors, numerous French prisoners fell into our hands."

HELPS TO MAKE GERMAN SHELLS

Swedish Iron Sent in Large Quantities to Enemy Countries—Lord Robert Cecil on United States' Action

LONDON, July 27.—Lord Robert Cecil, Minister of Blockade, emphasized in an interview with the Associated Press today the vital necessity to the Entente Allies of stopping the trade in iron ore and wood pulp which the Scandinavian countries are now carrying on with Germany.

"You ask me," said Lord Robert Cecil, "if the United States is justified in threatening the Scandinavian countries with a stoppage of food supplies unless the ore trade is stopped.

"Certainly it seems here that the United States very properly may ask Sweden whether she wants American products so much that she is willing to forego her profits in trade with Germany.

"Iron ore and wood pulp traffic between Scandinavia and Germany is so important that it is hard to overestimate it. Our military and naval people tell me that without Swedish iron, Germany's munition factories would be in a very difficult position. Sweden is exporting directly to Germany the fundamental materials for shells to kill our soldiers and yours.

"It certainly would be a great mistake to neglect to take any step which might put a halt to a traffic which means, every ton of it, the loss of Allied lives."

ROUMANIAN CABINET IS RECONSTRUCTED

Coalition of Liberals and Conservatives Effected, With Former in Majority —M. Bratiano Still Premier

JASSY, Roumania, July 27.—A new Roumanian cabinet, to take the place of that formed on December 26, 1916, is announced.

J. J. C. Bratiano will retain the Premiership and the portfolio of Foreign Affairs. Other members are General Joanescove, Minister of War; M. Constantinesco, Minister of the Interior and Food; M. Titulesco, Minister of Finance, and Vintila Bratiano, Minister of Munitions.

The new war cabinet will be a coalition Government, being composed of eight Liberals and five Conservatives. The Liberals have a majority in Parliament.

Assigned to Flying Corps

LONDON, July 27.—Lieuts. P. D. McNally and W. O. Chambers are assigned to the Flying Corps.

REACH AGREEMENT ON WAR PRISONERS

Terms Arranged by Britain and Germany Announced in the House of Commons—Both Combatants and Civilians Affected—Release in Certain Cases

LONDON, July 27.—(Via Reuter's Ottawa Agency.)—In the House of Commons today Mr. J. F. Pope announced the terms of the Anglo-German agreement regarding prisoners of war, which has been ratified by both Governments.

The agreement is as follows:

"First, all existing agreements for direct repatriation shall be resumed.

"Second, the qualifications on medical grounds both for repatriation and internment in a neutral country of combatant prisoners shall be more lenient, and shall be based for the time being on the arrangements already in force between France and Germany.

"Third, the more seriously wounded and seriously ill in Switzerland shall be sent back to their own country in order to make room for others who may now be qualified.

"Fourth, in addition to the last named and such others as Switzerland may be able to accommodate, there shall be selected for internment in Holland 7,500 sick or wounded combatant prisoners of all ranks. That means the total for both countries, and not for each country.

"Fifth, all officers and non-commissioned officers, whether in health or not, who have been incapitvity for 18 months or more, shall be eligible for internment in a neutral country, and shall be so interned as far as accommodations can be provided. Preference shall be according to length of captivity. The Dutch Government will provide places for 6,000 of this class.

"Sixth, the Dutch Government will further provide for 2,000 civilian prisoners, invalids being given the precedence.

"Seventh, if the number of combatant prisoners eligible for internment, whether on grounds of health or time, exceeds the accommodation, a division shall be made between British and German prisoners of each class in proportion to the eligible men of the two nationalities. As in the case of civilians, it would give Germany seven or eight to one British, it has been agreed that internment should proceed on the basis of proportion.

"Eighth, punishment for attempts to escape, in both countries, is to be reduced to fourteen days' special confinement for a simple offense or two months for an aggravated offense. All combatant prisoners now undergoing punishment for such offenses shall be restored to ordinary captivity, the latest by the first of August.

"Ninth, all reprisals against individuals shall be immediately cancelled, and any future reprisals shall only occur after four weeks' notice, while the execution of all sentences for offenses committed by combatants and civilians between the date of capture and the first of August shall stand over until the conclusion of peace."

Mr. Pope added that the Government was considering the offer of Denmark to intern a certain number of prisoners at Copenhagen.

Railway Situation Is Considered in Caucus

Conservative Members Agree That G.T.P. and C.N.R. Should Be Aided—Government Control Suggested—Speculation as to Termination of Session of Parliament

OTTAWA, July 27.—There is talk now of prorogation of the House by Saturday, August 25. With the Military Service Bill, the Extension Bill and the income tax measure either disposed of or introduced, there seems no reason why, with assiduous attention and no obstruction, Parliament should not be ready to prorogue by that date. Any cabinet reorganization will follow immediately upon prorogation and dissolution of Parliament will likely follow shortly afterwards. Elections are generally looked for in Ottawa early in October. It would be difficult to get the election machinery in operation for a much earlier date.

The most important legislation yet to come is that of dealing with railway problems. There was a long Conservative caucus yesterday, when the whole situation was discussed. The general feeling of the members was secured and the details of the policy were left to the cabinet to work out. It is possible that there may be another caucus before the legislation is finally adopted.

After listening to the responsible cabinet minister explain the situation the caucus apparently came to two conclusions:

1. That under present industrial conditions it would not do to have the Canadian Northern and the Grand Trunk go into the hands of a receiver.

2. That under existing war and financial conditions in Canada, the United States and Great Britain, it would be impossible and unwise for the Government to undertake a complete scheme of railway nationalization, as recommended by the Drayton-Acworth report.

Having reached these two conclusions, the caucus discussed at length what has been done to protect at the same time the railway properties and the public. It is understood that the meeting generally favored a proposal that a Government board of directors should be placed in charge of the lines which are in financial difficulties for the remainder of the war. The lines would be operated by the Government, although there would be no interference with the present operating staffs except to increase their efficiency.

Plans would also be worked out for co-ordinating the various lines with a view to economizing in operation and making better use of all railway equipment. The details of the scheme were left to the cabinet to work out. However, the members are confident that the Government proposal will meet with the general approval of the public. It will leave the way clear for complete nationalization of the lines after the war, if this is considered advisable, and if the roads are still unable to assume the liabilities. In the meantime the commitments will be met by the Government.

EX-KING MANUEL

London Daily Chronicle Objects to His Being Called King—Asks Why He is Not Serving in War

LONDON, July 27.—The Daily Chronicle editorially complains that London newspapers continue to describe ex-King Manuel as "King Manuel" and says:

"It is not very complimentary to our gallant republican ally, Portugal, to describe its ex-king as if he were still the ruling monarch."

After declaring that the deposed king "ran away from his throne and his country," the Chronicle adds:

"Ex-King Manuel would prove himself as more of a man and patriot if he would take some part in the war, fighting, for instance, with the Belgian army (he is fit and 29). He was wounded last year—playing tennis at Eastbourne."

NEWFOUNDLAND'S PROBLEM

Island Colony Concerned Over Supply and Distribution of Food During Coming Winter

ST. JOHNS, Nfld., July 27.—Midsummer, heralding the approach of colder weather, finds the colony of Newfoundland wrestling seriously with the problem of food supply and control for the coming year.

Not only is the island as a whole dependent upon the United States and Canada for the supplies of flour, pork, salt beef, sugar and many other articles of food but hundreds of communities along its seaboard of 6,000 miles, are cut off from any portation of any commodities during five months of the year. These settlements are served only by a freighting fleet of steamers and schooners, which bring in a year's food supply from St. John's and other large towns during the seven months that navigation is possible.

A government commission, which has been touring into the causes of the increase in living costs, is preparing legislation for the creation of a food control board. Little headway toward obtaining assurances of sufficient food to carry the colony through the long winter can be made, however, until the United States and Canada have decided upon their own food control measures, so that the amount available for imports into Newfoundland can be learned. The colony probably will be able to raise a sufficient supply of potatoes and other vegetables.

C.N.R. EARNINGS

Statement Shows Increase for Month of June and for Year—Net Earnings in June $102,000 Greater

TORONTO, July 27.—The Canadian Northern railway statement of earnings and expenses for the month of June, 1917, follows:

Total gross earnings, 1917, $4,043,600; for 1916, $3,877,200; increase, $671,400. Operating expenses 1917, $3,063,000; for 1916, $2,592,300; increase $563,500.

Net earnings, 1917, $1,057,000; for 1916, $943,000; increase $102,400.

Aggregate gross earnings to July 1, 1917, $41,244,700; 1916, $35,425,000; increase, $7,319,700. Aggregate net earnings to July 1, 1917, $16,404,400; for 1916, $8,537,300; increase, $1,998,600.

LORD BERESFORD SOUNDS WARNING

Says Shortage of Shipping Is Far More Serious Than Public Knows—Government Reports Misleading

LONDON, July 27.—In the course of a debate in the House of Lords on food prices Lord Beresford said that the shortage of shipping was far more serious than the public knew. The statistics showed that between August, 1914, and January, 1917, the British, Allied and neutral loss was 4,000,000 tons sunk. From January, 1917, until now we had lost nearly 4,000,000 more. The average rate of loss, taking the months from January till now, was 5,000,000 tons a year.

When we entered the war there were 49,000,000 tons of shipping in the world, of which the British, Allies and neutrals had 30,000,000. That has been reduced already by 8,000,000 tons. His opinion was that now we had not much more than 22,000,000 or 23,000,000 tons. Against that we had to consider what the Americans could put in the water, including ships taken from the Germans, which were about 2,000,000 tons, but a large number of these ships were not suitable for cargo carrying. The output of the British and Allies was about 2,500,000 tons. After the first two years of war, shipbuilding went down terrifically, so we were not nearly beginning to make it up.

He did not think we could make up altogether more than 4,000,000 tons a year.

They had not only to consider the shortage in steel, but the shortage in engines, too. He thought the position very dangerous, and asked the Government once more to alter the returns of losses, which were most misleading. They put in the arrivals and departures of all ships, but only the losses of British ships, and did not put in the tonnage, which was really the whole question.

As far as starvation was concerned, he did not believe that possible. The object of the U-boats was entirely defeated, but he believed that by March or April we would have a great shortage of tonnage. That would be the difficulty we should have to solve.

CANADIANS WIN ARTILLERY DUEL

Expert Gunners of Prussian Guard Vainly Employed at Lens—Letters Tell of Sacrificing Church Bells

CANADIAN ARMY HEADQUARTERS IN FRANCE, July 27.—(By the Canadian Overseas Correspondent.)—Our guns at last have definitely secured the upper hand on this part of the western front. The artillery actions by which this has been done have been in progress for several days.

With the view of challenging our ascendency in guns, the enemy recently brought up a battery of artillery attached to a Prussian Guard division. These additional gunners were given practically unlimited supplies of ammunition, which they used for the bombardment of our heavy artillery positions. They were good men, and a duel took place between them and our guns in the Loos and Avion sectors. It has ceased now. The counter-battery work of the British and Canadian gunners proved too much even for the highly trained artillery of the Prussian Guard and their activity is now subnormal.

Melting Church Bells

Perhaps the question of shell supply had something to do with the lessening of the enemy's fire. It is certain that the Germans are finding an increasing difficulty in replacing the projectiles used so prodigiously in these bursts of activity. A letter from a relative to a soldier on this front, dated July 16, stated that on the previous day the bells of the Protestant and Roman Catholic churches in the village in which the writer lived had been removed to provide material for shells. Having stripped the cities of brass and copper, the German metal controller is now taking the village bells.

Our use alike of drums containing liquid fire projected into the enemy's lines and gas shells increases steadily. The enemy also is going more frequently into gas warfare, which is the most terrible of all forms of taking life seen here at the front. Yesterday eighteen tons of gas were sent over the enemy's lines in the Avion sector, with practically no retaliation.

Infantry Thrusts

BRITISH HEADQUARTERS IN FRANCE, July 27.—(By the Associated Press.)—The artillery fighting along the western front continues to grow apace, particularly in Flanders, and last night was marked also by infantry thrusts at various positions. In one of these the British troops occupied La Basse Ville, after inflicting severe losses on the Germans. This place was in process of consolidation early today. (This dispatch was written before the time of the German counter-attack, in consequence of which today's British official report states the British withdrew from La Basse Ville.)

British troops also carried out a successful raid north of La Basse road.

German troops yesterday made an attack on a small section of British trenches in the neighborhood of Honnecourt, south of Cambrai. A party of about 100 raiders, divided into three sections, succeeded in penetrating the front line after heavy barrage fire which worked considerable damage to a portion of the British trenches.

Snowden's Mongrel

LONDON, July 27.—The Daily Chronicle's parliamentary correspondent, describing the peace debate in the House of Commons, says Mr. Bonar Law's military tone drew from Philip Snowden an impassioned speech which called forth many angry cries of protest. "Characteristic of Snowden's perversity of mind," says the correspondent, "was his reply to the query, 'Why did America enter the war?' His answer was: 'Ask the capitalists and financiers of the United States.' This monstrous insinuendo, so dishonoring to President Wilson, was very keenly resented by the House.

CANADIAN CASUALTIES

OTTAWA, July 27.—A list of 114 names was posted tonight.

Infantry

(Killed in Action)

Lieut. J. C. Jarvins, London, Ont.
Pte. J. R. Heaps, England.
Pte. W. Kerr, Scotland.

Heavy Livestock Transaction

LETHBRIDGE, Alta., July 27.—The biggest cattle deal in the history of Alberta has been concluded, whereby Ray Knight, of Raymond, and J. D. Watson, big cattle dealers, take over all the cattle of the Gordon Ironsides Company, of Winnipeg, and the grazing leases on the Blood Reservation. The transaction involves $400,000 and more than 4,000 head of cattle.

Putting Pep and Punch into the daily job during the hot days is a matter of physical and mental fitness—and this comes from foods that supply the greatest amount of real nutriment with the least tax upon the digestive organs. Cut out meat and potatoes and eat **Shredded Wheat Biscuit** with sliced bananas or other fruits and green vegetables. Strengthening and nourishing.

Made in Canada.

SEE NO CHANCE OF SETTLEMENT

Street Car Companies In Sound Cities and Their Employees Are Apart on Main Point of Dispute

SEATTLE, July 27.—Prospects for immediate settlement of the strike of three hundred Tacoma carmen against the Tacoma Railway and Power Company and 1,400 Seattle carmen against the Puget Sound Traction, Light and Power Company, is as far distant as ever, at the conclusion of two days of conference between representatives of the strikers of both cities and officials of the companies. Recognition of the Amalgamated Association of Street and Electric Railway Workers, the union with which the strikers of both cities are affiliated, remains, as it has from the beginning, the principal point of difference between the opposing forces.

At today's session of the conference, which began early this afternoon and lasted until nearly 8:30 tonight, President A. W. Leonard, of the local company, and Manager L. H. Bean, of the Tacoma Company, submitted to the strikers a variation of previous proposals.

Today's offer includes reinstatement of one discharged Seattle employee, reemployment of another as soon as work can be found in the department in which he was previously employed; submission of the cases of seven men discharged by the Tacom Company to a board of five representatives of the carmen; and arbitration of all matters of employment and wages as provided in the charter of the Seattle company. The offer, however, concludes with a declaration that neither the Amalgamated Association nor any affiliated union is to be recognized, and that both companies are still to operate on the open shop basis.

Representatives of the strikers were of the opinion, at the conclusion of the conference, that the strikers would emphatically reject the proposal, as union recognition is the principal point on which they insist.

The conference committee immediately reported the company's proposal to the general strike committee, which was unanimously of the opinion that it would be rejected. However, it will be submitted to a referendum at a mass meeting tomorrow. The Tacoma mass meeting will take place at 10 o'clock in the morning, the Seattle meeting at 2 o'clock in the afternoon.

SOME RUSSIANS FIGHT BRAVELY

Cavalrymen and Cyclist Corps Offer Heroic Defence—Cowardly and Treacherous Infantry Cause of Defeat

PETROGRAD, July 27.—Accounts of the battles in Galicia which have reached here say the Russian cavalrymen fought like heroes. Cossacks, cooperating with Russian and British armored motor cars, defended the Sereth line as long as the least hope remained. It is reported that artillerymen in their knees implored the infantry to save their guns, but the infantry did not heed them.

General Korniloff's orders to shoot traitors and marauders are being carried out. The commander of a grenadier division has been removed for refusing to fire on deserters.

The fifth cyclist battalion fought most bravely. It kept off three German regiments with its machine guns and carbines, and made several bayonet charges afoot. In one attack the men rode their bicycles. Some sections of the battalion lost eighty per cent of their officers.

A member of the Duma who has returned from the Dwinsk front states that after Russian attacking battalions had captured very important German positions it was discovered in several instances that signalling to the Germans was going on from the Russian rear.

Belgian artillerymen and mechanical experts in Petrograd, many of whom were wounded on the Yser and Ypres fronts, are forming a "battalion of death" to give an example of military valor on the Russian front.

KEEP PLANTS CLOSED

Packers at San Jose Say They Will Not Reopen Until Intimidation of Employees is Stopped

SAN JOSE, Cala., July 27.—The situation was further complicated late today by the announcement of packers that their plants would remain closed, even if the striking employees voted to return to work, on the ground that the present tie-up is due, not to a strike, but to intimidation of employees.

The packers flatly stated that they would not deal with the alleged agitators who are directing the walk-out. They said their employees are willing and anxious to work, but are prevented through fear of threats that have been circulated among the workers. The employers declare they would not open the five canneries affected by the strike, which are now locked tight, until the United States Government took some action to prevent a recurrence of the present situation.

Seeking Spruce Lumber

WASHINGTON, July 27.—A party composed of representatives of the Government, the British, French and Italian missions, aircraft manufacturers and lumbermen will leave here early next week for the Pacific Coast to stimulate production of finished spruce for air planes. The itinerary will include Seattle, Tacoma, Portland and possibly San Francisco. In the party will be E. T. Allen, of the defence council's lumber committee; Lieut.-Col. L. W. B. Reese, of the British Royal Flying Squadron; Major Perfetti, of the Italian mission, and Capt. Henry Bourif, of the French mission.

SAY CZERNOWITZ IS ABANDONED

Vienna Papers Report That Russians Are Withdrawing —Roumanian Troops Have Taken More Territory

COPENHAGEN, July 27. — Reports from Vienna say that the evening newspapers in the Austrian capital assert that the Russians are evacuating Czernowitz, capital of Bukowina.

Roumanian Success

PETROGRAD, July 27. — Roumanian forces have advanced toward the upper reaches of the Suchitza River and are consolidating their gains. The Roumanians took many prisoners and captured six guns, according to an official report issued here today.

Russian cavalry threw back the pressing Austro-German infantry on Wednesday in the region southwest of Monasterzyska, in Eastern Galicia.

Between the Dniester River and Carpathians the Russian forces continue to retire in an easterly direction.

Southeast of Trembowla, in Galicia, near the Russian border, the Russian troops retired a short distance to new positions.

Austro-German forces have occupied the Galician towns of Plotycy and Czystylor, on the Sereth River.

JASSY, Roumania, July 27.—The occupation of ten villages by the Roumanian forces in their new offensive is announced by the War Office. The Austro-German forces retired in disorder.

Teutonic Advance Continues

BERLIN, July 27.—Near Tarnopol, in Eastern Galicia, Kaiser Wilhelm yesterday watched the German troops extend their gains at the Sereth bridge-head, the War Office announced today. The statement says that the troops are rapidly advancing on both sides of the Dniester River.

The Galician town of Kolomea, on the railroad between Stanislau and Czernowitz, has been captured by Teutonic forces.

Austro-German forces are pursuing the Russian troops who are retreating through the wooded Carpathians in the direction of the Pruth River.

The troops under command of Archduke Joseph have retreated on the Roumanian front. The statement says that the Teutons left to the Russo-Roumanians the territory of the Suchitza Valley as far as the upper course of the Putna River.

The supplementary official statement issued this evening says:

"In Eastern Galicia and in the wooded Carpathians the enemy is yielding before our advance, which continues to progress.

"The Artillery battle in Flanders continues."

NEW STEP TAKEN TO SAVE RUSSIA

Premier Kerensky Convokes National Council to Meet at Moscow — Efforts to Keep Revolution From Disaster

PETROGRAD, July 27.—The extreme gravity of this country's position at the front and internally has impelled Premier Kerensky to convoke on July 31 at Moscow an extraordinary national council. All the members of the Duma, prominent men from chief centres of the country, and representatives of the zemstvos, municipalities, labor unions and universities will participate.

The council will hold two sessions, at which the Government will be asked to make an exhaustive report on the condition of the country, and answer questions and will ask opinions of authoritative persons on how best to save the fatherland from ruin.

Explaining the scheme today, Premier Kerensky declared that attempts to move the revolution backwards were impossible. Conspiracies to restore the monarchial government would be suppressed "in the most determined and merciless way."

As an indication of the policy and firm measures to be taken, Kronstadt received an ultimatum to hand over three of the chief Bolsheviki agitators, including the notorious Roschal. In case of a refusal the island will be declared blockaded.

The newspapers declare the position at the front is somewhat improved. As the evacuation of Tarnopol is considered to have been premature, Russian generals have been ordered to recapture the town.

MINES CLOSED DOWN

Five of Largest Properties in Leadville District to Cease Operation—Coal Mines May Be Idle

LEADVILLE, Colo., July 27.—Three of the leading mining companies in the Leadville district announced their intention tonight of closing down five of the largest metal mines in this field, pending a readjustment of the labor situation. Pumps are being withdrawn, underground tramways, tram cars and tools removed, and preparations made for an indefinite shutdown, the managers said, until such time as the operators say they can operate without interference of the labor unions.

DENVER, July 27.—Hope of averting the strike called for August 1 of more than 5,000 coal miners employed by the Colorado Fuel & Iron Company, virtually was abandoned today, when the conference between the miners' delegates and company officials ended abruptly with the rejection by the men of the proposal made by J. F. Welborn, president of the company.

German Ships Repaired

WASHINGTON, July 27.—The big German steamship Vaterland, seized at New York by the American Government when war was declared by the United States on Germany, will be ready for service shortly. Repairs to the ship have cost slightly less than $1,000,000. More than half the German vessels taken over by the United States have been repaired and put on the seas. All those taken in American continental ports will have been repaired in a few weeks.

Brassieres, Regular 60c for 50c

PLANS TO RATION NEUTRAL COUNTRIES

Methods of Stopping Conveyance of American Goods to Enemies Are Now Under Consideration

WASHINGTON, July 27.—A plan for rationing the Northern European neutral countries was put before President Wilson today by the exports council.

A general policy of supplying America first, the Allies second and the neutrals last was announced by the President in his proclamation putting the export control into operation, but no specific policy has been adopted. At present no licences are issued for shipment of goods to the northern neutrals. A large number of Scandinavian ships, loaded with foodstuffs, are awaiting permission to sail.

The American Government has no intention of attempting to stop all neutral trade with Germany, will put an end to reshipment of American goods into enemy territory.

Gradually the export control will take the place of the British system of letters of assurance.

GERMAN EFFORTS TO SECURE GOLD

Public is Entreated to Hand Over Stocks of Precious Metal and Jewelry to Govt.

AMSTERDAM, July 27.—The daily recurring public notices printed in conspicuous type in German newspapers entreating citizens to aid the Fatherland by giving it their gold evidently are insufficient to produce the required results. The Weser Zeitung, of Bremen, publishes a renewed appeal, complaining especially that the well-to-do public still fails to realize the situation.

The newspaper cities examples of members of the German Imperial and royal houses sacrificing their gold and jewellery, and says competent authorities calculate that 300,000,000 to 400,000,000 gold coins are being obstinately hoarded in Germany, while the value of gold ornaments is estimated at 1,000,000,000 marks.

A frontier correspondent of The Telegraaf reports that all privately-owned gold ornaments and jewelry in Westphalia have been requisitioned this week, and must be handed over to the banks.

LONDON, July 27.—A dispatch to The Times from Amsterdam says: "The Telegraaf's Zevenar correspondent says: 'All the gold and precious stones in private possession are to be requisitioned in Westphalia this week, and must be delivered to the banks.'"

"The requisitioning of precious stones, following the withdrawal of the German silver florins from circulation, is significant. On the latter subject, the financial editor of The London Times, under the headline, "Germany Prepares for the Worst," says:

"No other construction can well be placed on the latest currency development in Germany than that preparations are being made for the fall of the mark to even lower depths. In any case, the step proves how desperate the problem of German credit has become as indicated by the depreciation of German currency."

Recruiting in United States

NEW YORK, July 27.—Figures showing the progress of recruiting for the British service in this country given out at the headquarters of the British arcruiting mission show that from July 6 to July 21, 3,601 were recruited. Nine hundred and three went into a British expeditionary force and 2,698 into the Canadian Expeditionary Force.

German Chief Spy Assassinated

AMSTERDAM, July 27.—Les Nouvelles, of Maastricht, reports that one of the chiefs of the German espionage service in Belgium was assassinated last Friday at Lommell, Belgian Limburg. No trace of the assassin has been found. A reward of 2,000 marks has been offered in notices posted everywhere.

Tan, Red or Freckled Skin Is Easily Shed

To free your flummer-soiled skin of its muddiness, freckles, blotches or tan, the best thing to do is to free yourself of the skin itself. This is easily accomplished by the use of ordinary mercolised wax, which can be had at any drug store. Use at night as you use cold cream, washing it off in the morning. Immediately the offending surface skin begins to come off in fine powder-like particles. Gradually the entire cuticle is absorbed, without pain or inconvenience. The second layer of skin now in evidence presents a spotless whiteness and sparkling beauty obtainable in no other way.

If the heat tends to loosen and wrinkle your skin, there's an effective and harmless remedy you can readily make at home. Just let an ounce of powdered saxolite dissolve in a half-pint witch hazel and bathe your face in the liquid. This at once tightens the skin and smooths out the lines, making you look years younger.

J. H. LePage, optometrist and optician, ground floor, Hayward Building, Douglas Street. Exact scrips.

IRISH CONVENTION

Practical and Businesslike Character of Assembly is Noted—Little Public Attention is Given

DUBLIN, July 26, via London, July 27.—The second day's proceedings of the Irish convention have confirmed the good impression of the opening day. A practical and businesslike complexion has been given to the assembly, and while nobody under-estimated the hardness of the various nuts which will have to be cracked before a sound and satisfactory kernel can be found, there is a general agreement that the difficulties will be approached in the right spirit.

Henry E. Duke, Chief Secretary for Ireland, in conversation, laid emphasis on the practical side of the Irish character and said that the delegates to the convention were, in the main, men who had a large experience in affairs. Mr. Duke naturally would make no prediction as to the ultimate results of the convention, but he was evidently impressed with the spirit in which the assembly met.

The population of Dublin again displayed little interest in the gathering of delegates, and, truth to tell, there was nothing spectacular to attract attention. People here appear to think that the absence of any popular demonstration is "all to the good."

WOUNDED OFFICERS

Particulars Concerning Several Canadians In Hospital in England and France

LONDON, July 27.—Following particulars are given out concerning wounded Canadian officers:

At casualty clearing station, Capt. A. D. Fervie, wounded in the left arm and right knee, dangerous.

At Rouen: Lieut. A. M. Walker, severely wounded in the thigh and forearm; Lieut. H. L. Chittenden, severely wounded in thigh; Lieut. R. S. Srtonach, gassed.

In London: Capt. J. T. Anglin, right arm, compound fractures; Lieut. J. P. Lindsay, right foot; Lieut. C. J. O'Neil, multiple shrapnel wounds.

At Ramsgate: Major F. K. Collins, foot amputated.

Shortage of Coal Carriers

MONTREAL, July 28.—A Cleveland dispatch to The Herald reports that coal is coming forward more freely, and more tonnage will be wanted in that trade from now on to supply the demands in the Northwest. The fleet loaded 329,000 tons of soft coal last week. The movement to July 1 showed a loss compared with a similar period last year. Delay at the ore docks has forced a large number of boats to go up light and at some ports are more plentiful than coal carriers.

Savagery for Prisoners

LONDON, July 27.—A Times dispatch from the Roumanian army headquarters on the 20th says: "A Roumanian sergeant who succeeded in escaping from the prisoners' camps in Germany, tells of the horrible treatment to which Roumanian and Russian prisoners are subject there. In January 3,000 prisoners out of 8,000 died. The civil population suffers much from hunger and often trains of provisions are looted by the hungry people."

Ministry of Reconstruction

LONDON, July 27.—(Via Reuter's Ottawa Agency.)—By a vote of ninety-two to thirty the House of Commons today gave second reading to the bill establishing a Ministry of Reconstruction to co-ordinate the activities of the various committees and departments dealing with problems of reconstruction, and to frame schemes for the restoration of normal conditions after the war. The functions of the ministry will be mainly advisory.

Deaths From Air Raid

LONDON, July 27.—The number of deaths caused by the German air raid over London July 7 totalled 59, according to an official revised list made public today. An official statement on July 7 reported forty-three killed and 197 injured in the German airplane raid that day. Three German airplanes were brought down and seven other raiders were destroyed.

Neutral Ships Detained

BALTIMORE, Md., July 27.—Eighteen neutral ships are anchored off this port with 96,000 tons of garin in their holds. Fifteen are Dutch and three Norwegians. Some have had their cargoes under hatches for a month awaiting a licence from the United States Government and letters of assurance from the British Ambassador. The cargo of one neutral steamer, consisting of grain, was dumped overboard yesterday because it had spoilt. It consisted of about 7,000 tons of corn.

Abbey's Effer-vescent Salt

For a Bright Rosy Complexion

A LOVELY, clear soft skin, natural and true to nature awaits those who daily use ABBEY'S SALT — blackheads disappear, pimples vanish as the magnesia is expelled through the pores of the skin.

ABBEY'S SALT is a gentle regulator, will keep the bowels and digestive organs in the pink of condition. This sparkling, healthful tonic is pleasing and palatable, it contains positively no acetanilide or bromides of any description — a spoonful in a tumbler of tepid water morning and night is all that is necessary to insure natures peachy complexion.

Hospitals, Nurses, and Physician's have accepted Abbey's—why not you?

CHILDREN'S AID NOW WANTS MORE MONEY

Would Wipe Out Old Debts—Children Are Kept in Tents—$500 Per Month Needed — New Building to Be Obtained

Officials of the Children's Aid Society yesterday appealed to the aldermen for an increased grant from hte city to carry on their work. Mr. H. A. Beckwith, secretary, said that because of the increase in the number of children and general rise in costs, the society would need $500 a month from now on instead of the $383.33 granted at the first of the year. This substantiated the prediction made by Alderman Andrew when the grant was made that $383.33 would not be nearly enough. In addition to the increased grant the society wants $1,198 to wipe off back debts up to August 1, in which amount is included cost of moving and buying furniture from the Day Nursery.

Reports of the officers showed that with five children admitted last week the institution is now so crowded that some of the children are stored away in tents. Plans are being made for moving to larger quarters before the cold weather sets in. The rent of the larger quarters will be $80 a month.

Alderman Cameron said that children were being taken in by the society that should not be accepted. "I don't think that the city is called on to run a semi-charitable boarding house for children and then take a chance collecting bad debts," he said. "One of the great facts the officers must realise is that the society has got to be more careful about taking in improper cases because once you get them in you have got to keep them."

Mr. A. B. McNeil, one of the officers, explained that when a magistrate orders the commitment of a child to the society, the society is forced to take the child. He declared that when a magistrate commits a child he should make an order that the municipality whence the child comes should pay the actual cost of keeping the child.

Alderman Andrew wanted to know whether anything had been done towards introducing meatless days in the society in keeping with war habits outside but no one could enlighten him in any way.

WILL KILL MORE FLIES THAN $8 WORTH OF ANY STICKY FLY CATCHER

Clean to handle. Sold by all Druggists, Grocers and General Stores.

RUSSIA NEAR PRECIPICE

Failure of Government to Hold Country Will Mean Chaos and Rule—German Propaganda

LONDON, July 27.—The situation in Russia, according to a dispatch from Petrograd is declared to be dangerous and is attributed to the lack of discipline of some of the Russian troops and German propaganda, "the impudence of which is almost past belief."

"Petrograd," the writer says, "is exhausted by the continued political excitement, and the people are craving a stable government. Decisive and swift action is necessary above everything else.

"The problem before the government is immense," concludes the correspondent. "They stand on the brink of a precipice. If they can hold back the country the situation is saved. If not the country will rush into chaos and anarchy."

Two More Senators

OTTAWA, July 27.—Two more Senate vacancies were filled today. The new Senators are both Montreal men, Smeaton White, president of the Montreal Gazette Publishing Company, and George E. Foster, K.C. Mr. Foster has been a prominent member of the Montreal bar for many years.

THE SUBMARINE CAMPAIGN

Britain's ocean-going vessels before the war comprised a tonnage of between 17,000,000 and 18,000,000—let us say 17,500,000. At present the total including prizes and new ships, is slightly over 15,000,000 tons. In other words, the Germans, during three years of war, have reduced the ocean-going mercantile marine of Great Britain by approximately 2,500,000 tons. It would take them, at this rate, eighteen more years to wipe out the remaining 15,000,000 tons, though that is not a fair estimate, because the unrestricted submarine warfare has only been in force for the past six months. During the first two years of the war British shipbuilding figures were reduced, as so much attention was concentrated on warship construction. But at the beginning of this year an immense programme for adding to the mercantile marine was drawn up and is now being carried on with undiminished vigor. At the same time, or rather a few months later, the United States entered the lists in building ships, while orders were placed by Britain in Japan, Canada, Australia and other countries. The first fruits of Great Britain's programme are now being gathered, and during the next few months hundreds of thousands of new tonnage will be added to the mercantile marine. The effect of this programme will be cumulative in its character. While it may not for a year to come keep pace with the losses suffered through submarines, it is certain that the tremendous energies devoted to construction in all the Allied countries will, eventually, more than compensate in new ships for the tonnage that the Germans are able to destroy, even if their present ratio of effort is increased.

There have been so many exaggerated figures published in connection with the submarine campaign, especially latterly, that Lord Robert Cecil's statement, which we publish today, is exceptionally timely. Only optimism can be based on the figures which he quotes. April was the most successful month, from the German standpoint, in the unrestricted submarine campaign, yet those who have studied the nature of the enemy's operations assumed that the toll of merchant vessels would reach its greatest height during the midsummer months, when the period of daylight was longest. Instead, the experience has been that the victims have been fewer. While an occasional week shows an increase on its predecessor, the conclusion must be reached that on the whole the campaign is not securing the results anticipated by the enemy.

In the course of time practically every ocean-going vessel sailing to and from Great Britain and France will be armed, so that the chances of escape when attacked will be correspondingly increased. In addition, as pointed out, the programme of new construction will produce ever-increasing results until eventually it will be possible to offset the losses caused by the enemy. Another factor which will tend to nullify the effects of the campaign is the new areas in Britain being placed under cultivation. Germany is reckoning without the resources of her enemies in basing her hopes on submarine activity ending the war. Before many months have passed she must awake from this illusion.

THE McLEOD-TELLIER FINDINGS

The McLeod-Tellier Commission has exonerated Mr. Robert Rogers from all blame in connection with the construction of the Manitoba Agricultural Building. The Commission finds that during the time he was Minister of Public Works for Manitoba all contracts that were let for the Agricultural Building were properly let, and that the contracts themselves were carefully drawn and properly safeguarded by the Government. It also states that the payments during Mr. Rogers' term of office were made only after they had been duly and honestly certified by the proper officials of the department, and that there was no conspiracy between the Minister or any other contractor or person. In conclusion the finding is that Mr. Justice Galt's reports, so far as they reflect against the honor and integrity of Mr. Rogers or the honesty of his dealings and transactions, are against the evidence.

Mr. Rogers has been the subject of so much criticism in the Liberal press of Canada because of this contract that it is common justice to emphasize the findings of the McLeod-Tellier Commission. It is a regrettable habit among certain newspapers in the Dominion to assume a politician's guilt the moment he is accused of anything. When such newspapers are opposed to his politics they rarely wait for the evidence to be adduced, but immediately commence to make what political capital is possible. When this practice is discontinued the press of the country as a whole will exercise a greater influence and come to be regarded solely as the mouthpiece of one or other political party. In the case under review, Mr. Rogers was bitterly attacked. Every Liberal force in the country was brought to bear to accomplish his political downfall. He asked to be relieved of the portfolio of Minister of Public Works at Ottawa and requested the appointment of a Commission to review the findings of Mr. Justice Galt. The result is his complete vindication. There are only two courses open to his enemies in the matter. They can attack and repudiate the findings of the McLeod-Tellier Commission, or they can do common justice to Mr. Rogers by admitting they were too hasty in their criticism.

LABOR'S CONTRIBUTION

The full membership of organized Labor in Canada up to the end of 1916 was 160,407. Of this number 32,102 joined the army, or somewhat under one-seventh of the membership. Out of a total of 42,000 troops secured in this Province, organized Labor gave 2,656. Ontario's contribution was 5,390; Alberta's, 2,762; Manitoba, 2,236; Quebec, 1,945; Nova Scotia, 1,717; New Brunswick, 952; Saskatchewan, 892, and Prince Edward Island, 67. The number of trade union recruits who joined the colors in Victoria was 459 and in Vancouver, 1,320.

It is estimated there are 160,000 wage earners in Canada's army, so that the unorganized workers have contributed nearly 140,000 of this number. The voice of organized Labor, as interpreted by its leaders, has been heard on the subject of conscription, but we have yet to hear what unorganized labor has to say. Unorganized workers in the Dominion probably total approximately 1,000,000, on the basis that they have sent the same percentage of men to the war as organized Labor. These figures go to show that Labor's voice is largely inarticulate, but it can make itself felt at the polls. If Sir Robert Borden decides that Labor shall have a representative in the next Cabinet he will do well to give consideration to the claims of all the workers in the Dominion.

GOVERNMENT AND RAILWAYS

As far as can be gathered, the Government has come to the conclusion that, owing to war and financial conditions in Canada, it would be impossible to embark on any scheme of national ownership of railways at present. This conclusion is obvious, logical, and, to our way of thinking, it was inevitable. When the war is over and economic conditions readjust themselves, all the railways will soon be on a paying basis, or else our confidence in the future of Canada is unjustified. Whatever Government is then in power will be glad to leave well enough alone and we shall hear no more of the State entering into competition with the Canadian Pacific Railway, a condition of affairs which would be grossly unfair.

SYNDICALISM

Russia has political, social and military troubles to wrestle with these days, but the economic strain the country is undergoing is perhaps the most serious of all. Wages which doubled since the war began have doubled again since the Revolution. In some cases they have increased sixfold. There is one munition factory in the country where the men only work six hours and then take a day's rest. The monthly output of this factory was represented by the figure 200 before the Revolution and now it is only 12. Meetings of the workmen are held during working hours in various factories and permanent delegates have been appointed who have to be paid by the employers. When the workmen take it into their heads to strike they demand pay for the time they are idle, and if it is refused they threaten to kill their employers.

It is inevitable that under conditions such as these prices are going up by leaps and bounds. Boots which formerly cost $7.50 a pair can now only be purchased for $50. Some commodities are tenfold dearer than before the Revolution. Big works, owing to conditions, are threatening to close down. Mr. A. M. Thompson, the editor of The Clarion, who has been in Petrograd for some time past, says the object of the exactions made by workingmen is not to improve their conditions, but to enforce syndicalism. Mr. Thompson, who is a Socialist, believes that, unless order can be restored, national ruin is inevitable, and in this statement he is supported by Mr. Arthur Henderson, a member of the British War Cabinet, who recently visited Petrograd. M. Kerensky, the new Premier, needs the world's sympathy in the herculean task he has before him in showing to fanatical workmen that they are bringing their country to the edge of a precipice. What Russia wants is victory in the war and then, removed from the shadow of the German menace, she can work out her own salvation with the aid of time. The difficulty is to persuade the people that the war is the business of the greatest importance.

A subscriber is informed that the population of Bavaria is a little over 6,000,000.

All honor to the Russian Women's Battalion which stepped into the breach and attached the Germans while the Russian male soldiers were deserting. These modern Amazons are worthy successors to the battalions which legend has it served under Queen Penthesilea in the Trojan War. Russia is also mobilizing her women to serve in her navy, which gives rise to the suggestion that they should be known as Jill Tars.

"The greatest danger we have to fear from the war," says Lord Selborne, "is that we may sink to the level of the Germans." To avoid this we must curb our evil passions, including a spirit of revenge, which is illogically rampant now-a-days and can serve no military purpose.

Britain's Minister of Munitions says that the tanks are of two varieties, both male and female. Up to date only the "Hers" have made their appearance. The females are now being evolved by Colonel Stern and Sir Eustace d'Eyncourt.

Lord Derby says that no danger threatens Holland from the sea, but danger threatens her from the land. There is no question of Great Britain trying to strike at Germany through Holland, for as long as she remains neutral her neutrality will be respected.

A London judge has ruled that when a girl breaks off a marriage engagement she must return the engagement ring. He points out that generally a ring presented as an engagement ring is no more than a ring presented in consideration of a future marriage. The effect of it is that if the lady repudiates the contract she must return the ring.

The question has been raised in England, if a civilian can shoot an enemy airman who has been brought down on English soil, or is forced to land by accident. The law is perfectly clear on the point. Russell on "Crimes" says: "To kill an enemy alien within the realm, except in the actual exercise of war, is as much murder as to kill a born Englishman." Thus, only those organized for the defence of a country can take part in the war—that is, to the extent of killing the enemy.

The meaning of the name "Canada" has been arousing interest among people in England because of the presence there of Dominion troops. Numerous books have been consulted on the subject and the conclusion reached is that the name was due to a mistake. When the French explorers first sailed up the St. Lawrence they pointed to the land and asked its name, but the natives, thinking they required the name given to the collection of wigwams on the shore, replied, "Canada." And so it has remained ever since, if this interpretation of its origin is correct.

SOCIAL AND PERSONAL

The annual garden party of the Ladies' Aid Society of the Church of Our Lord, held on Wednesday at "Marifield," the home of Miss Cridge, was most successful both financially and socially, providing an enjoyable afternoon's entertainment. The picturesque old gardens were thronged by members of the congregation and friends, and the prettily arranged booths scattered over the grounds added a bright note to the attractive scene. Tennis, clock golf, an Aunt Sally and a fish pond provided much entertainment for young and old, netting a good sum to augment the receipts from the fete. The first prize in the tennis tournament was won by Miss Marjory Leeming and Mr. Cecil Laundy and the seconds by Miss Lee and Mr. Ainsley Helmcken.

Dr. and Mrs. A. W. Kenning and Mr. and Mrs. J. W. Morris and family, of Oak Bay, are spending an enjoyable holiday at "The Chalet," Deep Bay. Other guests this week are Mr. and Mrs. Birmingham, of Vancouver, and Mr. Telfer, Portland, Ore.

Miss Marion Quinland, of San Jose, Cal., who has been visiting her grandmother, Mrs. M. Allen, of 871 Collinson Street, left yesterday on the SS. Prince Rupert for a trip to Alaska and other Northern points.

Mrs. W. J. H. Holmes, wife of Lieut.-Col. Colmes, D.S.O., on active service at the front, is recovering from a recent serious illness, during which she was a patient at St. Joseph's Hospital.

Mr. A. Arthur Cox, F.R.I., B.A., of the Military Convalescent Hospitals Commission, has been visiting in the city for a few days, a guest at the Empress Hotel. Mrs. Cox came over from Vancouver Wednesday to join him.

Mrs. William Barrington, of Vancouver, is spending a few days in the city with friends.

Mrs. Gilbert Potter, of Chicago, who has been visiting the coast for some weeks, is now in Victoria, and is delighted with the city and its climate. She will stay here for about a week, and hopes to make a motor tour of the Island before going East. She will make the return trip through the Canadian Rockies, as she desires to view the scenery which is much finer than that which she saw when traveling to San Francisco.

Mr. James H. P. Mason, of San Francisco, is visiting the city for a few days.

Mr. John Rader, of Cincinnati, Ohio, who has been visiting the city for the past week, left for the East yesterday, and expressed himself as having enjoyed one of the most pleasant holidays within his memory.

Mr. W. Richardson was a recent visitor in Nelson.

Mr. and Mrs. J. T. Lane, of Nelson, are spending a holiday with friends in Victoria and Vancouver.

Mr. and Mrs. C. D. Risk, of Nelson, have arrived on the Coast for a few days' vacation.

Among the Victorians on the steamer President, which left last night for San Francisco, were the following: Miss E. H. Rhodes, Mrs. O'Connell, Ovena Larsen, Mrs. Carton, Mrs. Grubb, Miss Coxhead, Miss E. Clayton, Mr. F. Clayton, Mrs. R. L. Drury, Mr. A. R. Langton, Mrs. Virginia Langton, Mr. and Mrs. C. Pratt, Mrs. Clayton, Mr. Edmund Sawyer, Miss M. Feran, Mr. George Maclachland and Miss Marion Maclachlan.

Quebec Bridge Span

QUEBEC, July 27.—The entire span of the Quebec bridge will be put in place on the morning of September 12. The event was planned to take place quietly without witnesses, but an engineer of the commission is supposed to have told the secret to a newspaperman. The span, which is the second the St. Lawrence Bridge Company has built, is nearly finished, and the superintendent of the Quebec Bridge Construction Company is now busy engaging men for the suspension of the span. The men will be paid $5 per hour for this delicate work.

LETTERS TO EDITOR

Profiteering

Sir,—With reference to your article in today's paper on "Profiteering," by the substitution of the word "pound" for "stone," a very wrong idea is given of the profit made by the dealers in beef. The profit, as shown by your article is eight pence per stone (14 lbs.) instead of eight pence per pound, as stated.

In the earlier days of newspapers the "devil" would be blamed for this error. It certainly is a devil of a mistake.

DAVID MILLER.

P.O. Drawer 707,
Victoria, B.C., July 27, 1917.

[Our correspondent is correct; the word pound was written instead of stone. He is wrong, however, in saying that a stone is fourteen lbs. in the circumstances. A stone of dead meat or fish is eight lbs.—Ed.]

Defence of Waitresses

Sir,—Please permit me to reply to an article which appeared in your paper on Saturday, July 21, under the heading of "To Protect Girls From Night Life," etc.

I am not conversant with the habits of young girls or the night life conditions as they exist in Victoria, but place myself on record as endorsing any steps that may be taken to remedy any existing evils.

However, since this article was published in your paper, I have personally called upon Alderman Dilworth, who is your authority for this article, and explained thoroughly to him the position occupied by waitresses working for a living in the respectable cafes in Victoria. My duties, both as head waiter in a local restaurant and president of the Cooks, Waiters and Waitresses Union, Local 459, enables me to speak with authority on this subject, and when the truth was pointed out to Alderman Dilworth, he admitted the reflection that had been cast upon the waitresses in our city, and retracted absolutely his statements reflecting upon the character of bona fide waitresses.

I appreciate Alderman Dilworth's changed attitude on this subject, and also his fairness in the matter, and I wish to state that he did not intend casting any reflection upon the honest, hard-working women employed in Victoria's cafes.

Thanking you in advance for publishing this letter so that your many readers may correct any mistaken impressions received through Alderman Dilworth's original remarks, I am,

ERNEST R. APPLEBY,
President Cooks, Waiters and Waitresses Union, Local 459, 1330 Denman Street, Victoria, B.C., July 27, 1917.

Never Real Estate Agent

Sir,—I notice that I am referred to in the Friday morning issue of The Colonist, in connection with my appointment to the Land Settlement Board, as being "a real estate agent," and wish to point out that I am not and never have been in the real estate business during my twenty-one years' residence in the Province.

DUNCAN MUNRO.
Terrace, BC.

CHIEF JUSTICE HUNTER DEFINES PEACE TERMS

Addresses Bar Association in Seattle on Allies' Attitude Toward Germany in Settlement of Indemnity

Outlining the conditions of peace for the warring nations, Chief Justice Gordon J. Hunter, of British Columbia, at the opening session of the joint meeting of the Washington, Oregon, Idaho and British Columbia Bar associations, held in Elks hall, Seattle on Thursday, among other things urged:

Evacuation of any occupied territory belonging to any of the allies, and in the case of Belgium complete recompense for all that has been lost or destroyed so far as money can do it.

That France ought to be satisfied with the restoration of Alsace and Lorraine.

That the cession of the Irredenta ought to satisfy Italy, so also with Serbia.

That Poland should be restored to independence with all necessary guarantees.

That the questions as to what portion of Germany, Russia and Austria are to be incorporated should be settled by a plebiscite taken in the affected areas.

That the boundaries of Roumania and Bulgaria should be settled in the same way.

Suggest Common Language

That a common language be taught by all the warring nations in the primary schools in addition to the language they individually use.

That there be a change in the constitutions of the warring nations to the effect that a declaration of war shall be made only by their parliaments and not by their executives.

That a League of Peace be formed at the close of the war by the allies, and that there be also formed an international court to decide all international disputes that cannot be settled by negotiations or arbitration.

That there be established an international unit of coinage, and that the metric system be adopted.

Declaring that we are all now fellow citizens in the cause of liberty, Chief Justice Hunter said that the unvarnished fact is that the bandits who broke into Belgium are now surrounded by the armed forces of international law, and that it has now become apparent that there can be no peace without victory.

Germans as Burglars

"When burglars are surrounded by the police it is not considered just or proper that the police shall make terms with them about their trial or punishment," said Chief Justice Hunter, "and yet, while this is so in the abstract, it would, I think, be in the interest of humanity if the Allies were to make a more definite statement than has yet been made of the conditions which they intend to impose because no just cause can suffer from publicity.

"Now that the United States has joined the crusade against organized savagery, and Russia has emphatically shown that she will not cease her efforts until the eventual triumph of democracy is achieved, the Allies may well afford to be less exacting in the conditions imposed than might otherwise be considered."

Discussing the ejection of the Turk from Europe, to which, he said, everyone would agree but the Turk, Chief Justice Hunter said the establishment of the Russian in his place is, however a different matter.

International Dardanelles

"Russia has all the territory she can demand," said the speaker, "and has not as good a claim to Constantinople as either the Bulgarian or the Greek. All Russia should have is the same free right of passage as any one else through the straits, which waters should be internationalized and put under the government of an international commission."

The German African colonies, Chief Justice Hunter said, should be turned over to the South African Union, so also the islands that have been sezid in the Pacific, lest they form the nuclei of disturbance. The easiest solution of Germany's difficult problem, the speaker said, would be the handing over to her of Turkey in Asia, or a good portion of it, for German colonization, which, he said, he believed would be a good set-off against the loss of African territory.

Indemnity for Belgium

Regarding the indemnity to Belgium, the speaker said that this might take the form of a yearly rental to be paid Belgium by Germany, for an outlet at Antwerp or some other Belgian port that would give quicker access to the Atlantic for German commerce.

Chief Justice Hunter also declared that the abolition of the hostile monarchies is another necessary condition to durable peace.

The granting of the franchise to women of all warring nations, Chief Justice Hunter said, is another condition that might well be supported. More attention, he said ought to be given in the schools to the achievements of orators, artists, discoverers and inventors and less to the exploits of Alexander and Napoleon.

MODERN SHIPS PAY HOMAGE TO "VICTORY"

Like an Empress holding Court, Nelson's flagship the Victory swings proudly at her moorings at Portsmouth Harbor and receives with stately dignity the homage of all modern fighting craft as they pass deferentially by.

An appealing sight, one that stirs the blood and sets the mind to weaving visions, this of the newest men-of-war paying their respectful salutations to the oldest warship afloat.

But it is not the showy aspect alone that attracts the spectator. A certain something in the amosphere, possibly the romantic contrast between then and now, stimulates the imagination and sets one conjuring up mental pictures, fanciful, if you will, though so full of charm that one could wish some assurance that they were real. As an illustration, if it be that the mighty dead have power to come among us, all-seeing yet unseen, and walk with shadowy footsteps again the ways along which they once trod an earthly path that led them to undying glory, may we not imagine the shade of gallant Nelson pacing the Victory's quarter-deck and gazing with astonished eyes upon the procession of strange keels which pay honor to his memory as with swift-gliding obeisance they steam past his grand old flagship? A motley throng often these fighters of today, with such oddly shapen hulls among them as to impart a touch of the fantastic to the contrast between past and present.

First to move out, a huge super-Dreadnought swings down on the tide. While she is in the distance the call of a bugle winds along her decks, and one notices the crew mustering at her sides. Marine guards are mounted on bridges and quarter-deck. When opposite the Victory the bugles sing a chant of salutation while the men come to attention and remain rigidly thus while the great battleship "doffs her cap," as it were, to the famous old three-decker, then with dignified mien goes her way to sea. Maybe cruisers big and little follow her example in giving ceremonious greeting to the Victory as they pass by her.

An interval, and then the destroyers begin to slip past, appearing, as always, to be in a vast hurry; yet they, too, "Fell in all hands on deck" for the act of homage to the Navy's Pride that may under no circumstances be omitted. Along waddles a monitor, misshapen of build, awkward of gait and "makes her bow" after the fashion of one unused to courtly usages, then lurches onward again, anxious to get where there is plenty of sea room.

Well in her wake are the odd craft—very odd, some of them so far as looks go. Quainter figures than they have never conformed to the rules of naval etiquette during the long and changeful period in which the Victory has queened it in this picturesque way over all others of our fighting ships.

Each of them salutes her punctiliously. Even the fussy motor launches, though often manned by those who are new to the ways of the sea, scrupulously make conge to the noble old ship. So also do the submarines which pass her. Occasionally one views a striking object lesson in naval development when a seaplane is droning waspishly above the Victory's towering masts while a submarine slides gently through the water just under her beam.

From her high place as senior flagship the Victory has seen our Navy remodelled more than once, and never in a state of more remarkable transformation than now. Still, as the only visible embodiment of the senior service's great traditions, this grand old relic of the "Navy-That-Used-to-Be" daily claims her meed of homage from the "Navy-That-Is," as in days to come she will continue to exact it from "The-Navy-That-Is-Yet-to-Be." And who among us is there that has prescience enough to forecast just what that navy will be like?

JACKSTAFF.—London Daily Mail.

Strikers in Oil Field

TAMPICO, Mex., July 27.—The strike of all the workmen in the Tampico oil fields, which began three days ago, ended today, when General Alfred Ricaut, the governor of the Province, ordered the strikers to return to work at noon. The strikers, who had tied up all business and oil production here, complied with the order.

It is understood that the demands of the river boat men, in sympathy with whom the other workers went on strike, will be taken under consideration next week.

Shells Near Emperor Charles

AMSTERDAM, July 27.—Emperor Charles of Austria had a narrow escape last week while visiting the battlefront in Galicia, says The Wiener Allgemeine Zeitung. While he was taking luncheon at a castle near the battalions, Russian artillery shelled the dwelling. He first refused to take cover and went, on the balcony, but finally was induced to leave.

FIFTY YEARS AGO TODAY

(From The Colonist, July 28, 1867.)

Cricket Match.—At Cotswood on Friday next there will be a match between the Victoria and Navy elevens. The Victoria team follows: Messrs. Richardson, (captain), Bacon, Barnett, Cullingham, Clarke, Ellis, Fowler, Green, Howard, Tye and Wilson.

The Puget Sound Steam Navigation Company, $50,000 capital, has been formed and stock is being rapidly taken.

Fortifications and Dockyard.—We learn that a commission will proceed in a steam launch today to survey Esquimalt harbor for a proper site for proposed fortifications and dockyard.

Garrison for British Columbia.—Our special telegram announces that a military force will be dispatched to British Columbia for our protection. It is high time our wants were attended to. We hope sincerely the report is true.

Vancouver Island Briefs

NANAIMO

This is Dollar Day in Nanaimo.

When Miss Annie Rouvier got into difficulties through her water wings slipping off while she was bathing off the Townsite Bathing Beach on Thursday, Miss Mary Menzies went to her rescue. But she also got into difficulty. Messrs. George Stannard, Stanley Jamson, John Barbori and Walter Green, who were on the shore, plunged in, without waiting to take off their clothes, and, with the assistance of Mr. Kermode and his launch, got the girls to safety. Eyewitnesses say that the girls would have been drowned had it not been for the assistance of the young men.

Nanaimo will celebrate the third anniversary of the declaration of war by Great Britain on August 4 with a musical programme and general demonstration which is being arranged by member of the Red Cross Club and the Bastion Chapter of the Daughters of the Empire. Mr. Llewellyn Williams is planning for the participation of the Glee Club in the event.

Mr. Joseph Booth has resigned from the presidency of the Nanaimo Hospital Board after having held the office for twelve years. He absolutely declined the re-election that was forced upon him. In his presidential address Mr. Booth says: 'This has been a rather strenuous year in and about our hospital. I inadvertently mentioned in my last annual report a special grant of $1,500 from the Provincial Government and also $571 from the Daughters of the Empire; in addition to which we received a donation of $105 from the Women's Tuxiliary. These grants of cash have enabled us to carry out many repairs and improvements that our hospital was very much in need of. A cursory glance over the list of disbursements will show that the full sum of donations was all expended upon repairs and improvements, and I am proud to say that today our institution is in a better state of repair, better equipped and in a better financial condition than it has been since I have been associated with it. My sincere hope is that this state of efficiency may long prevail. The heaviest expenditures have been contracted in the reshingling of the main building; the flooring of the two general wards and in the heating and sanitary systems not omitting the painting and kalsomining of the whole interior." Mr. Booth also refers to the gift of the X-Ray machine from the employees of the Western Fuel Co.

The worst Summer epidemic yet has broken out in Nanaimo, according to the editorial writer of the Nanaimo Herald. He writes: "Johnnies with their cameras are the latest nuisances complained of at the Townsite Bathing Beach. These gentry, the Herald is informed, frequent the beach for the sole purpose of snapping the bathers, particularly the ladies, unawares. If also they can spy girls dressing or undressing they at once bring their instruments to bear. Both girls and ladies resent the prying attention of these snapshooters, and as they are something worse than a nuisance, perhaps this note will serve as a warning for them to keep away."

Annual reports of the Nanaimo Hospital show that the institution is in a sound financial condition with assets amounting to $28,000 while the outstanding liabilities are only $125. Receipts during the year were $22,036.12, with expenditures $208.59 under that amount.

Officers of the Nanaimo Hospital for the next year have been elected as follows: President, J. M. Rudd; vice-president, George S. Pearson; secretary-treasurer, Jonathan Shaw; directors to succeed Dr. Brown, T. Cunningham and W. E. Rumming were elected as follows: William Sykes, Joseph Sutton and John McGuckie.

"The year just past has been busy in our institution," reports Miss M. P. McMillan, lady superintendent of the Nanaimo Hospital. "Nine hundred and forty patients were admitted for treatment during the twelve months. Each one remained an average of twelve days, giving a total of 10,388 days' stay. Of the patients admited, 810 cases required surgical treatment, 206 required medical, 31 X-ray, 23 Electrical Oven, and 70 cases were obstetrical. You will see by the figures above quoted that the staff enjoyed very few idle moments. In addition to the above, the Nurses' Training School has been taken care of by Miss Walker and myself, of course, in conjunction with a series of lectures by the medical fraternity of the city, who always have, and do yet, give their services gratis—not only in instruction, but in the examination of the nurses for graduation. This year we had a class of twelve nurses in training, four of whom graduated with great credit to themselves and to our hospital, and I wish to personally thank the doctors and Miss Walker for their great assistance in bringing about the consummation of such creditable results. This year has called for more extensive improvements and repairs than last year and with the installation of an up-to-date X-ray machine, an Electric Oven and thoroughly modern improvements in the operating room, our hospital begins to show a condition of perfection for an institution of its size. Great credit is due to the members of the Women's Auxiliary for their untiring energy in catering to the many wants that the board of directors could very easily overlook; not only by their services in sewing, but by assisting in the purchasing, and by entertainments our wardrobe has from time to time been replenished by linens, thus filling a long felt want. The doctors' wives have very generously renovated the nursery, and made it a most presentable little ward. This department has a capacity of five fully equipped cribs. Miss Walker, our head nurse, made application and was accepted for overseas service, and at the expiration of her vacation, will leave our city for military work. Miss McLaurin, a graduate of Winnipeg General Hospital, has been engaged to fill the vacated position. Before concluding, allow me to express my sincerest thanks to the Board of Management, the Women's Auxiliary and the medical fraternity for the valuable support and assistance I have received at their hands in the carrying out of my duties as superintendent of our hospital.

Haliburton Methodist Sunday School holds its picnic today at Nanoose.

Mr. Charles Hillier, of the Sisters' Lighthouse, is visiting old friends in Nanaimo.

The feature of the orchard party given Wednesday evening at the home of Mrs. Edward Devlin, of Victoria Road, was the hot dinner served under the apple trees. A musical programme was given during the evening, Madame Roseis sang the Marseillaise in French.

The garden fete scheduled for tonight has been postponed untill Thursday next, owing to rain.

CUMBERLAND

H. Watson, of Cumberland, has been wounded in action, according to word just received.

MUCH ALUMINUM IS REQUIRED BY U.S.A.

The United States will require 50,000 tons of aluminum a year for aeroplane and motor vehicle construction to carry on the war against Germany, according to Dr. F. C. Weber of Chicago, a chemist and experimental inventor.

This amount of aluminum, Weber says, cannot be obtained from bauxite, its present source. We must use kaolin, or firecIay, which the Germans have been using since their source of French bauxite has been cut off. Weber says this country's supply of kaolin is practically inexhaustible. The largest deposits are in Illinois.

Weber has submitted his theory to the Society of Industrial Engineers, which in turn will take it up with the Council of National Defense.

Three Perish in Fire

WOODSTOCK, Ont., July 27.—Walter Malcolm, an old resident of Patchley, his wife and their grandson, were burned to death in a fire which destroyed their home soon after midnight. Their bodies were found this morning in the cellar. The cause of the fire has not been learned, and it had gained such headway when the neighbors arrived that rescue was impossible.

Australian Flour Cargo

AN ATLANTIC PORT, July 27.—The first cargo of flour from Australia ever to reach this port was brought in today in a Swedish steamer. It consisted of 7,500 tons, and was consigned to a British agency.

Metal Trades Council Meets—Members of the Metal Trades Council will meet tonight in the Labor Temple to discuss the suggested terms whereby an agreement might be reached, making it possible for Victoria manufacturers to accept contracts for ships' engines. Owing to the inability of some of the employers to be present at the conference scheduled for tonight, it has been postponed for a few days.

INDIANS INDUSTRIOUS

Large Number Will be Engaged in Fishing on the Fraser River

Over sixteen hundred Indians from practically every reserve on Vancouver Island and the Southern Mainland will be engaged on the Fraser River when the salmon fishing is at its height shortly. At present there are about 800 natives employed and that number is being rapidly added to, says Dominion Indian Constable Thomas O'Connell, of Nanaimo, who was in the city yesterday after spending some days looking after the interests of the Indians now on the Fraser. After the fishing season is ended the great bulk of the Indians will go to the hop fields in the vicinity of Chilliwack and Agassiz, where every year considerable employment is given to them. The conduct of the Indians now on the river has been exemplary. In fact, every year little or no trouble is experienced with them and their industrious and sober habits while at the work have always been the occasion for most favorable comment.

Accompanying Constable O'Connell to Victoria was Mrs. O'Connell who sailed last night on the steamship President for San Francisco, where she will spend two months visiting with their son Thomas, a member of the staff of the Bank of California.

Eczema Wash

A touch of D.D.D. to any eczema sore or itching eruption and you'll be able to rest and sleep once more. Think—just a touch! Is it worth trying? Get a trial bottle today. Your money back if the first bottle does not relieve you. C. H. Bowes & Co., Druggists, Victoria, B.C.

Equitation—C.Q.M.S., F. W. Stevens, Sergt. F. C. Griffin, Sergt. F. Christy, No. 21 Coy., C.A.S.C.

Confirmation of Rank—The undermentioned provisionally appointed officer, having qualified himself for the appointment, is confirmed in his rank from the date set opposite his name: Lieut. Supernumerary J. C. A. Long, 5th Regiment, C.G.A., March 7, 1917.

The following appointment is authorized: Forestry Depot, Vancouver, B. C.—To be paymaster with honorary rank of captain in the C.E.F., Mr. H. F. Maskill.

Transfers

The following transfers are authorized: Gnr. Frederick H. Snider, Gnr. Russell B. Holloway, from No. 11 Special Service Coy., C.E.F., to the 68th Depot Field Battery, CE..F., July 20, 1917; Act.-Bombr. G. McColl Williams, from the 72nd Regiment Overseas Reinforcements, C.E.F., to "J" Unit, M. H. C. C., June 1, 1917; Pte. Charles Thorne: Pte. A. C. M. Birchall, from "J" Unit, M.H.C.C., to No. 11 Special Service Coy., C.E.F., July 24, 1917.

The undermentioned men are transferred to the Forestry Depot, C.E.F., Vancouver, B.C., from the units set opposite their respective names and with effect from July 27, 1917: Pte. F. Anderson, Pte. N. Deuteau, Pte. A. C. Vance, 30th B. C. Horse; Cpl. John Plant, 102nd Regiment, Overseas.

The undermentioned men are transferred to the A. M. C. T. D., No. 11, from the units set opposite their respective names and with effect from July 27, 1917: Pte. C. T. Poulton, 30th B. C. Horse; Pte. J. Duncan, 50th Regiment, Overseas; Pte. F. J. Williams, Pte. H. Gill, Pte. N. Mathison, Pte. G. Lee, Pte. H. Baldwin, Pte. C. H. Lee, Pte. M. McManus, 88th Regiment, Overseas; Pte. H. Johson from the 50th Regiment, Overseas Draft, to the A. M. C., T. D. No. 11, July 26, 1917.

MILITARY NOTES

All troops at present stationed at Hastings Park, Vancouver, will be moved to Queen's Park, New Westminster. This movement will be completed by the last of the month, according to orders issued yesterday at Work Point headquarters.

Soldiers training in Victoria will be given the chance to become proficient in the art of cookery next month, a course for a period of one month being commenced at Willows Camp, on August 1.

It is noted in the Canadian Gazette that Capt. W. B. Shaw, of the Canadian Field Artillery, who is now convalescing in Victoria from wounds, has been gazetted as acting major. Major Shaw expects to return overseas as soon as he has sufficiently recovered. All promotions in the Canadian Expeditionary Force are provisional.

Corpl. Stanley Penwill, who left here with the 103rd Battalion, was killed in action on June 19, acording to word received here yesterday. He was employed by Henry Brothers, grocers, of Oak Bay, before enlisting, and was a member of the choir of St. Columba Presbyterian Church.

HALL CAINE'S GREAT STORY NOW IN FILMS

Admirers of the works of Hall Caine will find much to their liking in "The Deemster," which is the attraction at the Royal Victoria Theatre, commencing Monday, and for the balance of next week, with Derwent Hall Caine, son of the novelist, as Daniel Mylrea. Scenically, the picture is a delight. Laid in the Isle of Man early in the Eighteenth Century, the stretches of bold coast line, broad expanses of foam-flecked ocean, picturesque views of humble fishing huts and of the imposing castles of the lords of the land, are always things of beauty and harmonise perfectly with the strange, primitive people depicted in the tale.

Born on the island, Hall Caine knew all the legends and beliefs of his countrymen by heart. He is a novelist who depicts humanity with moving power and great faithfulness. "The Deemster" is universally acknowledged as one of his masterpieces, and the story lends itself easily and effectively to screen requirements. There is sentimental interest in the salvation of Derwent Hall Caine to head the cast. The young man is able to maintain his position by right of merit.

His acting reveals an easy command of his resources, and his personality is distinctly in his favor. Marion Swayne, in the character of Mona, plays with sincerity and feeling.

The excellent orchestra of the Royal Victoria, the excellent playing of which is regarded as one of the chief attractions of the big theatre, will as usual render a special and appropriate programme during the performances.

WORK FOR RESCUE OF FALLEN GIRLS

Social Service Workers Ask City to Support Vancouver Home — Local Institution Also Active in Work

The aldermen have not yet decided whether the city should make a grant of $250 to the Presbyterian Social Service Home, 2821 Cambie Street, Vancouver, whither have been sent during the last three years thirty-four Victoria girls who were in the danger of being dragged down in the whirlpool of Victoria night life, as described by Alderman Dilworth last week.

The Rev. H. T. Archbold, heading a deputation of the Social Service Commission, including Bishop Schofield and Dean Quainton, yesterday again asked the aldermen for the grant. He explained that the home has been in existence for five years, during which time it has cared for 115 girls from Victoria and Vancouver. The home is under the immediate government of the Presbyterian Church in Vancouver. The girls are taught housekeeping in such a way that a life of excitement will not tempt them. Also delicate corrective physical operations are performed on the girls without charge to them.

Rev. Mr. Archbold explained that the most of the girls who come out of the home become decent citizens. He said that the work of the Vancouver home was not exactly the same as that carried on in the Refuge Home in Victoria. The Vancouver home treats only special cases. It is considered necessary to send many Victoria girls to Vancouver to get them away from their associates here who are always ready to drag them down again.

Must Dodge Evil Associates

Mrs. Frank Andrews, representing the W.C.T.U., put in a plea for the support of the rescue home operated by that institution here. Mrs. Andrews explained that this was a Provincial home, accepting girls from Vancouver, no girls ever being refused admission. She said the object of the home was to train wayward girls to be useful Christian women. The girls are never allowed out without a matron. Mrs. Andrews said that there is no reason why any Victoria girls should be sent away from this city for training.

Mrs. E. A. Henry, of the Vancouve. home, said that it was often easier to treat Victoria girls in Vancouver. She declared that there always should be exchanging of girls between the homes in the cities. "It is almost impossible," continued Mrs. Henry, "to put a girl who has fallen back amongst her old associates without going astray. The old associates always follow a girl who has fallen."

"I would respectfully suggest that before such a grant is made to this institution the council should investigate the nature and methods of this entire work," stated the Rev. William Stevenson in a communication to the mayor. "Some months ago I felt compelled to resign my connection with the Social Service Commission solely on the ground that I could not endorse certain features in the methods by which this particular branch of social service work was carried on.

Should Protect Girls' Liberties

"It is in my humble opinion an exceedingly dangerous thing to allow any body of citizens to assume the power to interfere with the rights and liberties of young girls by causing them to be removed from their homes and from parental care to be sent away to an institution of a reformatory character without the sanction of a properly constituted court supported by legal authority.

"Since this social work was undertaken under the commission I have had a growing conviction that it could only be carried out to the best advantage by some kind of court operated perhaps along the lines of the juvenile court.

"In my humble judgment the whole question of dealing with the class of girl here aimed at calls for serious consideration, and the present seems tobe the opportune time to take up the matter."

Alderman Peden said that, despite their differences, all the societies of this nature were working towards the same end and should therefore receive some support from the city. The finance committee of the Council will consider whole question on Monday.

LOST IN FOREST LIVES ON BERRIES

James Cairns Missing for a Week, Turns Up at Extension—Suffered From Lack of Water

NANAIMO, B. C., July 27.—James Cairns, resident of this city, aged 60 years, who has been lost since Friday of last week, turned up at 9 o'clock this morning at Extension but little the worse for his week in the woods Cairns subsisted during the week on berries, his greatest sufferings being from lack of water. The section of woods in which he was lost was comparatively small and how he escaped the notice of the large body of searchers is hard to understand.

Health in the LIME FRUIT.

THE West Indian Lime has long been known to contain more Natural Health-giving properties than any other fruit. Think for why

ROSE'S LIME JUICE

after 35 years is still unsurpassed as a Non-alcoholic Drink. The British Government, recognising its value, make large requisition for the troops at the front, and for use in the Royal Navy. Try a Lime Juice and Soda; you'll be glad it is ROSE'S, the Original and Genuine Brand.

DEFENDS TAXATION POLICY OF GOVERNMENT

Hon. John Oliver Tells Metchosin Farmers the Government Needs the Money—Blames Late Administration

Exposition of the policies of the Government, especially those having for their object the development of the agricultural industry, was made by Hon. John Oliver, Minister of Agriculture, at the annual meeting of the Farmers' Institute of the Metchosin district, held last night in the Agricultural Hall, Metchosin. About seventy residents of the district were present and a pleasant evening was spent. Refreshments were served by the ladies and after speeches by the Minister of Agriculture and Mr. H. C. Hall, M.P.P., for Victoria, a social hour was enjoyed.

Hon. Mr. Oliver dwelt at length upon the question of the increased taxation upon the farmers, asserting that the financial condition of the Province, when the present administration took office, a condition consequent upon what he declared to have been the reckless extravagance of the late Conservative Administration, rendered it imperative that taxation should be increased in order that a businesslike policy of bringing expenditures and receipts more nearly together might be inaugurated. He said that the Government recognized that some of its taxation methods would not prove popular, but the necessities of the situation rendered them imperative. He declared the Government had found itself in a position somewhat like that of the Canadian Northern when that concern came to the Government for more money. It needed the money, said the Minister.

Hon. Mr. Oliver did not fail to criticize the administration of Provincial affairs by the late Government, he scored its actions in respect to the P.G.E. and C.N.P. railways and outlined the steps the present Government had taken to bring those companies to book. There was little or nothing new in his remarks which were a repetition of his previous statements on the same subjects. He gave a synopsis of the various acts passed at the last session especially the Sheep Protection Act, Agricultural Act, the new Land Settlement and Development Act and explained where, in the opinion of the Government, the last mentioned measure would work a revolution in the agricultural industry and lead to greater settlement and production.

Mr. H. C. Hall spoke briefly, touching upon some matters of legislation and policies of the Government not dealt with by the Minister.

OBJECTS TO ODORS OF CHINESE LAUNDRY

But, Despite Protests, Council Seems Inclined to Allow Mr. A. H. Harman to Open Superior Factory as Laundry

Chinese wash house discussions yesterday afternoon again drained the time of the aldermen. As a result of the discussion Mr. A. H. Harman is likely to get a permit to operate his empty factory building at 146 Superior Street as a laundry. The matter has been hanging for three weeks. At last the aldermen promised to make no further postponements, but to give their final decision on Monday.

Last Monday City Solicitor Hannington informed the aldermen that they were really legally bound to give Mr. Harman the laundry permit, as the building could legally be let for factory purposes, and laundries are included under factories.

Residents of the district, under Mr. Andrew Wood, again protested against the laundry permit. Mr. Wood said the Chinese should be kept out of the district, as they would depreciate the property. Mr. D. T. Jones objected to the children in the district being thrown into association with Chinese.

Mr. Harman told the aldermen that when the permit was granted him to erect the building it was in No. 2 fire district, which forced him to use permanent material costing $5,000 instead of $1,500. He said the building as it stands conforms to all the requirements of the Wash House By-law. He said the district is really still a factory district. Chinese, he explained, are now only a block away operating a laundry on Simcoe Street.

Mr. Bullock-Webster, representing the mortgagee, said that his client had made a loan on the building because it was in a factory district. If the building were rented as a laundry the rent would be applied to paying off taxes which would otherwise run behind. He explained that clothes would not be dried on the roof, to the annoyance of neighbors, but in the courtyard between the buildings. He declared that neither the smell of the washing or the Chinese themselves, even if they were dirty, which he, denied, would affect Mr. Woods, as the Chinese would carry on their work in the properly constructed brick building.

Alderman Peden said, in view of the reports from city officials, there was nothing for the aldermen to do but to grant the permit to Mr. Harman.

VETERANS COMPLETE CONFERENCE PLANS

Next Friday morning at 9 o'clock the first session of the Provincial convention of the Great War Veterans' Association will be held in the board room at the Belmont Block. Final arrangements for the programme to be followed were made at a meeting of the executive held yesterday afternoon.

At 12:30 o'clock Friday there will be a luncheon at the Dominion Hotel, which will be open to all persons caring to purchase tickets. It is expected that General Lockie, G.O.C., will be the guest of honor on this occasion. The luncheon will be followed by an afternoon session and in the evening the delegates will be the guests of the management of Pantages Theatre at the first performance. The balance of the evening will be devoted to a social gathering in the board room of the Belmont Block.

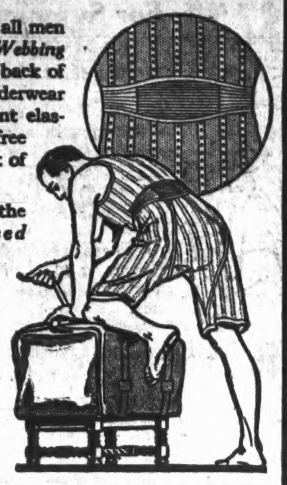

The closing session of the conference will be held Saturday morning and in the afternoon it is proposed to visit the convalescent homes at Esquimalt and Resthaven. In the evening there will be a smoker in the big room on the ground floor of the Belmont Block, at which the members of the South African Campaigners will be welcomed, besides all returned soldiers, whether members of the association or not. Dean Quainton will be the guest of honor. It is expected that about twenty-five delegates will attend the conference.

Dowager Lady Dinsdale, president of the Ladies' Guild of the British and Foreign Sailors' Society, is endeavoring this year, in commemoration of the coming of age of the Ladies' Guild, to raise the membership to 21,000. During the war the Guild has forwarded 200,000 woollen comforts and garments to sailors. Every fortnight over 2,000 packages of food are sent to merchant seamen prisoners of war of war. During the five months from January 1 the society has succoured in its homes 13,225 men from 442 ships. Gifts of clothing and boots for immediate needs are urgently required.

A Comfort Feature

that will appeal to all men is the *Reinforced Webbing* inserted across the back of this W.G. & R. underwear to make the garment elastic and provide for free and easy movement of the body.

Corns Stop Hurting, Then They Lift Out With Fingers

No pain or soreness! Corns and calluses just shrivel up and lift off. It's foolish to let a corn ache twice.

A noted Cincinnati authority discovered a new ether compound and called it freezone and it now can be had in little bottles for a few cents from any drug store.

You simply apply a few drops of freezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just lift it off with the fingers.

No pain, not a bit of soreness, either when applying freezone or afterwards and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also toughened calluses just shrivel up and lift off so easy. It is wonderful! It works like a charm. Try it!

Women should keep freezone on their dressers and never let a corn ache twice. If a corn starts hurting just apply a drop. The pain stops instantly.

Genuine freezone is only sold in little bottles packed in a round, wood case.

No need to be without a reliable watch now a high grade 7-jewel movement, in dust-proof case, can be purchased for $5 at Harper, 1134 Government Street.

HAPPENINGS IN BRIEF

Victoria Clearing House—Bank clearings at the Victoria Clearing House for the week ending July 26, amounted to $1,543,387.

Loses Substantial Sum—It was the misfortune of Mrs. Harry Baines, of Albert Head, yesterday morning to lose $110 in cash as she was walking on Fort Street in the vicinity of Douglas Street. The money, in bills of the Canadian Bank of Commerce, was dropped by her in the street near that point, but just where she does not know, and it was not until after it had gone that she became aware of her loss, which she reported to the police.

Reserve Road Now an Outcast—If the Provincial Government and the Foundation Company show no ambition to fix up the road leading from Esquimalt Road through the Reserve to the shipbuilding plants, the members of the Victoria Council "should worry." The aldermen yesterday said they didn't see any use wasting time talking about the terrible condition of a road which the city really hasn't anything to do with. They decided that if the road gets so bad that supply wagons can't use it in the Winter, the Foundation Company or the Government will have to pay the bills or go without the road.

Must Pay for Vagrant Currents—If the B. C. Electric Railway Company does not hold back a few of the stray electric currents that are racing around underground and attacking steel water mains, the city will soon have a goodly sized bill to present to the company. Alderman Dilworth yesterday announced that he will ask the Council on Monday night to institute proceedings against the railway company for the damages supposed to have been done to the mains by electrolysis. The worst case is on Hillside Avenue. The company for some time has been trying to restrain the straying currents.

Beg to Be Allowed to Pay—Shelly Bros. are in such great need of the use of the lane back of the bakeries on Blackwood Street that they yesterday asked the Streets Committee of the City Council if they could repair the lane at their own expense. No wishing to get Shelly Bros. into trouble, the members of the committee postponed granting the request until the City Solicitor and the City Engineer find out whether the lane belongs to the city or is privately owned. If the city owns it the aldermen will be delighted to have the bakery firm repair the lane and pay the bills.

Girl Guides Enjoy Camp Life—Guide Mistress Leighton, of Victoria, writes as follows from Galiano Island, where 30 girl guides from the local corps are in camp, "We are quite well and comfortable now, with lots to eat and delicious strawberries and fresh milk. This afternoon (July 26) we went in bathing quite a distance away from the camp, which really means an expedition for the party. The water was quite warm. We had a glorious trip here in a launch. We will not be home until Monday evening at 6:30 o'clock."

Saanich Residents in Trouble—As a result of long-standing friction between neighbors, Mr. William Kendall and his daughter Mary are now charged with attempting to do grievous bodily harm to Mrs. Mary Davis. There has been much trouble of late between Mrs. Davis and her neighbors over her cows, and a petition was recently made to the Saanich Council to have her stopped from keeping the animals. This morning matters came to a head in the police court, when it was alleged by Mrs. Davis that Mr. Kendall and his daughter came on to her property, and there assaulted her. Magistrate Jay heard the preliminaries yesterday afternoon, and remanded the defendants until Tuesday.

Library and Business Men—The officials of the Victoria Public Library report a gratifying increase in the number of telephone calls from business men. The institution is only too glad to look up any information which may be asked for, and whether it be the task of a moment to give a correct pronunciation, or a task requiring an hour's search, the staff will be equally willing to be made use of. In some of the large Eastern cities the libraries maintain a special telephone department, and the Victoria library would like to be made use of in this manner in a more general manner by the business men.

Institutes at Experimental Farm—The Women's Institute and Farmer's Institute of South Saanich, together with the Fruit Growers' Association of that district, paid their annual visit to the Dominion Experimental Farm at Bazan Bay last Thursday afternoon, where they were entertained by Professor Stevenson, superintendent at the farm, who is also president of the Farmers' Institute. The afternoon was passed very pleasantly by the members of the party in viewing the farm and brushing up their knowledge on agriculture and fruit-growing in its various phases. Tea was served by the ladies, and after extending a hearty vote of thanks to their host, the party dispersed.

Building Society's Drawing — The semi-annual meeting of the Victoria No. 2 Building Society was held last night in the secretary's office, 532 Broughton Street, to consider the financial statement of the past six months, which was fairly satisfactory considering the abnormal conditions. Following this the thirty-sixth drawing and appropriation was made, the following acting as drawing committee: Messrs. W. T. Williams, Jno. Woolcock and Ruther Wilson. The results of the drawing were as follows: First drawing, 182, A and B held by T. W. Allen; second drawing, 59, A held by Mrs. E. Segar; 59, B held by Capt. F. B. Richardson; third drawing, 74, A and B held by A. B. Fraser; fourth drawing, 92, A, B, C and D held by R. E. Gosnell.

Motor Speeders Pay Fines—Magistrate Jay held a session of the Saanich police court yesterday afternoon, and imposed a number of fines on motorists for speeding on the Saanich highways. A police trap which was set on the East Saanich Road last Sunday netted Messrs. Rosedale, W. Dixon, W. Spencer, Dr. Keyes, and Han Moke, a Chinaman. The first three paid a fine of $10 apiece, the case against Dr. Keyes was withdrawn when he stated that he was going to a patient, and that against Han Moko, who was charged with driving a motor cycle too fast, was remanded until Monday. Another trap, operated on Shelbourne Street, caught M. J. Lechmere, who paid $10 for driving his car too fast; and John Bates, who contributed $5 for motorcycling faster than the law allows.

Dance at Deep Bay—There will be a dance at Deep Bay this evening, and special efforts have been made to give those attending a pleasant time. There will be excellent dance music, and a special train is being provided by the B. C. E. R. The fare of 75c includes admission to the dance, and the train leaves the city at 7 p.m., the return being timed to leave Deep Bay at 10:45.

Agent-General and Immigration—A letter has been received from Acting Agent-General Turner, in which he approves very heartily of the proposal to interest officers now in France with the merits of British Columbia as homes after the war. Writing to the commissioner of the Development Association, he says that the greatest care must be exercised to see that the pamphlets which are issued represent the exact facts, and commends the idea as one worthy of the greatest support.

Federal Government Moves—In response to the request wired on Wednesday by Hon. John Oliver, Minister of Agriculture, to Sir George E. Foster, Minister of Trade and Commerce, urging that the Federal authorities take action to ascertain if the Australian Government contemplated placing an embargo upon the importation of British Columbia apples into that country, and, if so, to make representations against such a step, Hon. Mr. Oliver yesterday morning received word from Ottawa. Sir George, in a telegram to the Minister of Agriculture, stated that on receipt of the latter's message immediate representations were made to the Australian Government to the end that the reported proposed action relative to an embargo might be stopped. So far no answer has been received by Hon. Mr. Oliver from the Australian Government, to which he sent a cable urging that no such action as suggested should be taken.

Now Generally Cooler—Weather conditions throughout the Province became markedly cooler yesterday, with a tendency to precipitation in most localities. The rainfall here was inappreciable, but the changed conditions freshened the atmosphere. On the Mainland, showers were frequent, and thunder storms were experienced in many localities. The greatest heat reported in the meteorological records of yesterday was at Penticton, in the lower Interior, where the thermometer stood at 85 deg. at its highest; one-tenth of an inch of rain was also recorded at that station. In the Boundary country, temperatures were moderated considerably, and the rainfall at Nelson amounted to nearly three-quarters of an inch. At Grand Forks, .14 of an inch of rain fell. The maximum temperatures in these two cities were 70 and 77 deg., respectively. Rain was more general in the Cariboo, and along the north coast of the Province. The forecasts indicate heavier general precipitation for today.

Entertain Aged Men—Fifteen members of the Rotary Club, owners of motor cars, drew up at the entrance to the Home for Aged Men, Cadboro Bay Road, at 4 o'clock on Thursday afternoon, and invited the 48 residents of the home for a motor drive. The cars were also accompanied by other Rotarians, who were distributed among the guests in such a way as to help made the ride pleasurable in a conversational way. The men were driven for a short journey into the country and back along the marine drive to Beacon Hill Park, where a short interval was passed. They were particularly interested in the waterfront, which few of them had seen since the extensive improvement in the harbor works had been begun several years ago. They were returned to the home via the business section of the city. The aged men were particularly delighted with their outing, which came as an agreeable break in the rather monotonous life at the home from which the majority never wander. As an added expression of the Rotary spirit of good-will, a box of 150 choice cigars was left in the assembly room by the departing visitors.

Named Collector—To assist in the work of collecting the poll tax and other Provincial taxes Mr. William W. Moore, of Victoria, was appointed yesterday morning by the executive council as a special collector, making the third to be named for this work in Victoria, the other two being Messrs. Thomas Leeming and David Lewis. The collectors are working under the direction of Mr. E. E. Leason, Provincial assessor and collector for the Victoria district. Mr. Moore is a member of the firm of Messrs. Moore and Johnston.

Relief in the Prairies—While relief from the serious drought and hot wave in the Prairie Provinces has not yet become general, some improvement was noted in the weather reports from many localities yesterday. Rain was somewhat general in southern Alberta, but a little to the east of Medicine Hat, temperatures still ranged in the vicinity of 100 deg. in the Province of Saskatchewan. Conditions, however, were reported last night to be favorable to general rainfall or thunderstorms. This would perhaps be the only hope of averting a catastrophe in that vast region in respect to the crops.

I.O.D.E. FORMS NEW CHAPTER IN VICTORIA

At the Municipal Chapter, I.O.D.E., meeting on Thursday, the treasurer, Mrs. Curtis Sampson, reported a balance of $231.75 in the bank. Mrs. R. S. Day reported for the Patriotic Service Committee, Mrs. Cecil Cookson on the work of the Field Comforts Committee and Mrs. Mortimer Appleby for the committee in charge of caring for soldiers' graves. A number of letters from soldiers expressing thanks for the gifts of socks and field comforts were read, also acknowledgments from the different hospitals and charities benefiting from the proceeds of the Alexandra Rose Day collection. A request for knitted hose-tops for the men of the 50th Gordon Highlanders was received, and the Lady Douglas Chapter undertook to supply the demand. It having been found necessary to appoint an educational secretary for the chapter, the request was made that all primary chapters would submit names for nomination, the office to be ballotted for at the next business meeting. It was reported that a new chapter had been formed during the past month, in memory of the late Bishop Cridge, and has been called "The Bishop Cridge Ministering Circle," with the motto, "Love as brethren, be pitiful, be courteous." Mrs. J. H. MacFarlane, in conveying a message to the chapter from Mrs. Home, London, England, read a press notice of the recent opening of the wing of the hospital at Haslar, the gift of the women of Canada to the British Navy.

REVELSTOKE PROGRESSES

Member for Riding States Mining Development is Active and on Sound Basis

Dr. Sutherland, M.P.P., Revelstoke, was a visitor in the city yesterday, having been in Vancouver on business and taking the opportunity to run over to the capital and get in touch with the latest happenings in the political world. Business conditions in the Revelstoke district, he stated, are generally good.

There has been a marked revival in the mining industry along lines of development as distinguished from stock jobbing operations. The Granby people have secured extensive interests in mineral areas in the Big Bend section in the north of the riding, and in the south active development work is proceeding, the greatest drawback being a marked scarcity of labor, for which high wages are being paid. Prairie as well as United States capital is being invested in likely properties, and the progress is all along the most substantial lines.

THE WEATHER

Meteorological Office, Victoria, B. C., at 5 p. m., July 27, 1917.

SYNOPSIS

The barometer has fallen over this province and showers are becoming general from the Coast to the Rockies and also southward to the State of Oregon. Intense heat continues in the Prairie provinces. This will be followed by showers or thunderstorms and rain has already fallen in Southern Alberta.

Freckle-Face

Sun and Wind Bring Out Ugly Spots. How to Remove Easily

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable dealer that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength othine, as this is the prescription sold under guarantee of money back if it fails to remove freckles.

I.O.D.E. WILL TAG FOR ITS WOOL FUND

The Imperial Order of the Daughters of the Empire is holding a tag day on Friday, August 3, for the benefit of its wool fund. Ever since the commencement of the war the field comforts department of the I.O.D.E. has been sending large quantities of woollen articles, socks, shirts, sweaters, etc., to the men at the front, and now it has been decided that sailors must also be helped with warm comforts as well as the men in the trenches. The forthcoming tag day is for the wool fund for the United Service. Friday, August 3, being the eve of the anniversary of the declaration of war it is felt that appreciation of the work of the navy and army during the past three years could not be shown in a better way than by generously contributing toward keeping them warm and comfortable during the coming Winter.

5 PER CENT INCREASE SURPRISES TEACHERS

School Board Suddenly Announces Raise in Salaries—Postpone Special Classes in High School

All Victoria High and public school teachers who suffered a 10 per cent war reduction in their salaries are to receive an increase of 5 per cent. The increase will become operative from September 1. For the four months of this year the increases will cost the city an additional $1,700.

Without any preliminary announcements of indication that this action was to be taken the School Board last evening at a special meeting quietly put through the increases. The teachers have been agitating for the increases since the first of the year. Trustee Dr. Hudson has been persistently pleading their cause before the board, asserting that unless something was done to cheer up the local teachers who have become quite discouraged many of them would leave. A couple of High School teachers have already left and some of the older members of the staff have threatened to.

It was the belief of some members of the School Board that the salaries could not be increased until next year's budget was put through early in 1918. The general increases granted by the City Council to municipal employees apparently changed the minds of the trustees, however. It is likely that the teachers will be given a further increase when the expenditure for 1918 is decided on.

Grant Permits at All Schools

The trustees do not yet know exactly where the $1,700 is to come from to meet the increases, but they count on saving the money by cutting down other general expenditures.

The School Board last evening decided to postpone the inauguration of manual training and domestic science classes in the Victoria High School until the beginning of 1918. The inauguration of these classes would mean an outlay of $4,000. During the four remaining school months of this year preparations will be gradually made for the opening of these classes.

The rule requiring parents of children beginning school to appear at the School Board offices in the City Hall to secure admission permits was abolished by the trustees. Parents will now be required to appear only before the principal of the nearest school to register their children.

CATCHES FIRE AND SINKS OFF DEEP COVE

Blaze Which Originated in Cabin Destroys Big Motor Launch — Valiant Effort to Check Flames Fail

Late yesterday afternoon the big cabin cruiser Bonito, owned by Mr. J. B. Hocking, of Sidney, burnt to the water's edge while anchored at her moorings off Deep Cove, and sank, in spite of valiant efforts by Mr. Hocking and his wife to check the flames. The fire started in the cabin and is believed to have been caused by a short circuit.

Campers at Deep Cove were the first to notice the cruiser ablaze and immediately notified Mr. Hocking at his residence. Mr. Hocking is a partner with Mr. W. R. Mason in a boathouse business at Deep Cove. Mr. and Mrs. Hocking rushed down to the beach, boarded a rowboat and made their way to the flaming vessel.

Board Ship to Fight Flames

Armed with buckets which they filled with sea water, the two did good work, but their arrival was too late to save the boat. As soon as she began to list heavily to one side they sprang back into the rowboat and pulled away just before the Bonito heeled over and sank.

The Bonito is well known on the British Columbia Coast, having made a number of long voyages in the adjacent waters. She was the biggest and most seaworthy vessel in the vicinity of Deep Cove. Of the cabin cruiser type, she was 34 feet long and had a beam of eight feet. She was seven or eight years old and had recently been refitted. She was valued at about $2,000, and was not insured.

LAND SETTLEMENT BOARD APPOINTED

New Body Which Will Administer Government's Policies for Development Named — All Sections Represented

Following the appointment on Thursday of Mr. Maxwell Smith, as chairman of the Land Settlement Board, the new body which will carry into effect the provisions of the Land Settlement and Development Act passed at the recent session of the Legislature, the Executive Council yesterday morning named the other four members, who with Mr. Smith, will constitute the Board.

As announced in yesterday's Colonist, Mr. Duncan D. Munro, of Terrace, B. C., and Mr. Melbourne H. Nelems, of Chilliwack, have been selected. The other two members as Mr. John A. Macdonald, of Nanaimo, and Mr. Charles Reginald Ward, of Cranbrook.

Recently, by proclamation, the new act was brought into effect, and now that the board to administer it has been appointed, steps can be taken at once to make it operative. One of its first duties will be to consider the continuation of the system of farm loans which was inaugurated under the late administration and carried into effect by the Agricultural Credits Board, a body that was abolished at the last session of the Legislature, and its duties given to the Land Settlement Board. Before this system can be carried further, however, it is necessary that the Government should make a loan, as at present there are no funds available. All the money borrowed by the late Government, to the amount of $847,000, having been advanced. A large number of applications are now on hand from farmers seeking loans.

Mr. Duncan D. Munro was born in Glengarry County, Ont., on a farm, and his early years were associated with the agricultural industry. He has been a resident of British Columbia since 1896, living for four years in the Boundary country, where he was engaged in mercantile pursuits. For the past seven years he has been farming near Terrace, B. C. He is chairman of the advisory board of Farmers' Institutes of B. C.

Mr. John A. Macdonald, who will be Vancouver Island's representative on the board, has been a farmer for many years, and in recent years he has been identified with the lumbering industry, and has carried on business as a building contractor. He has recently been interested in financial affairs at Nanaimo, where he resides, being head of a successful financial and insurance business. He was born in Bruce County, Ontario.

Mr. Charles R. Ward, a civil engineer, and for a number of years one of the engineers of the C. P. R., is an expert in irrigation matters, having had extended experience in such methods in the Kootenay and Okanagan valleys. He was also actively identified with the irrigation projects of the C. P. R. in Alberta.

Mr. M. H. Nelems, who will represent the Fraser Valley and lower Mainland section, has been a long time a resident of the Fraser Valley, in the development of which he has taken a leading part. He was formerly a member of the firm of Messrs. F. J. Hart & Company, financial brokers, and was actively engaged in agricultural work. Of late he has been a resident of the Chilliwack district.

TEACHER-PUPILS STAR IN CONCERT

Pupils in the music and elocution class under Miss Coney at the Teachers' Summer School last night entertained some 300 of their fellow pupils and friends with selections from Shakespeare and musical numbers. The entertainment was given in the auditorium of the Victoria High School Mr. J. Kyle presided.

During the evening pupils of the music and elocution class presented a bouquet to Miss Coney, who is the regular music instructor at the Vancouver Normal School. The presentation was made by Miss Murray.

The work of the pupils was worthy of every commendation as their class was started only four years ago.

Following is the programme:

Queen Catherine's interview with the Cardinal, from King Henry VIII:—Queen, Miss Carrie Hall; Wolsey, Miss Sybil King; Campeius, Miss Keist.

Trio—"All Through the Night," Misses Beattie, Severs and Williams.

Song—"Ombra Mai Fu," ("Slumber My Maid"), Miss Beattie, L.A.B. As an encore she sang "Cuckoo."

Meeting of Orlando and Rosalind from "As You Like It"—Orlando, Miss Severs; Rosalind, Miss Williams; Jacques, Mr. Murray.

Recitation—"The Spires of Oxford," Miss Service.

Three-part Song—"Soldier, Rest," from "The Lady of the Lake": The Misses Williams, Severs, Beattie, Mackensie, Brydon and Service.

Beethoven's Moonlight Sonata, played by Mr. Wickett, following a description of the number and sketch of the life of the author by Miss Coney.

Trial Scene from "The Merchant of Venice"—Judge, Miss Buchanan; Shylock, Miss Mackenzie; Portia, Miss Beattie; Gratiano, Miss Nicholles; Bassanio, Miss Mabel Smith; Antonio, Miss England; Nerissa, Miss Watson; attendants, Miss Brydon and Miss White.

ALDERMAN IS TO DO REAL WORK

A general clean-up at Foul Bay beach was ordered yesterday by the streets committee at the City Hall. Two men will start on the work at once.

Aldermen felt sure that the work is to be carried out in the most approved manner when Alderman Dilworth announced that he himself would go out and take off his coat and pitch in. He says his energy will result in the city saving real money.

Some of the aldermen said that one man might be able to handle the work, but it was explained that two men would be advisable, as one man by himself might become lonesome.

So that visitors at night may not find themselves landed unceremoniously on the beach before they expect, the aldermen ordered a new light put at the head of the long steep flight of steps.

Wrist watches are the style at present: you can be up-to-date by securing one of Haynes' reliable 7-jewel wrist watches at $5. 1124 Government Street.

70,000 GALLONS OF OIL USED ON ROADS

The high cost of road oiling this year startled aldermen yesterday. Reports from City Engineer Rust showed that so far 70,000 gallons of oil have been used at a cost of 6 cents a gallon. Last year nearly 100,000 gallons were used at a cost of 2 2-7 cents a gallon.

Alderman Andros pointed out that the oil this year really costs the city about 7 cents when the cost of hauling it from the wharf and removing it from the steel drums is considered.

City Engineer Rust asked for an extra appropriation of $3,000 for oil. He said the oil should be of a heavier grade than that which has recently been used, as the lighter oil fails to bind the roads.

Ald. Johns said it was wise to oil the macadam roads, as they stand better against the Winter storms.

On the recommendation of Mayor Todd it was decided to spend $1,000 more on road oiling, subjeect to the approval of the finance committee on Monday. The Mayor proposed that the usual form of tender be reversed, the oil firms being asked how many gallons they will supply for a specified amount.

OBITUARY NOTICES

The death occurred yesterday, at 3155 Fifth Street, of Mrs. Elizabeth Teasdale, aged 36 years. Mrs. Teasdale was a native of Blackhill, England and had been a resident of Victoria for the past year, having formerly resided in Calgary, Alta. She is survived by her husband, William Teasdale, who left Calgary in September, 1915, and served with the 43rd Regiment in France and has just recently returned, also two small children; her father, John Rutter; one brother, Joseph Rutter and one sister, Mrs. Bainbridge, all of Victoria. The body is at the Thomson Funeral Parlors from where the funeral will take place on Monday at 2:30. Rev. H. S. Osborne will officiate. Funeral by motor.

Margaret Helen Hutcheson, eldest daughter of Mr. and Mrs. William Hutcheson, of 3229 Glasgow Avenue, died Thursday evening, aged two and a half years. The funeral will take place at 2:30 this afternoon from the Sands Chapel, where Rev. J. W. Flinton is to conduct the services.

Funeral services for Mr. Theophilus Elford took place yesterday afternoon at 2:15 at the family residence, 1426 Stadacona Avenue, Rev. H. S. Osborne officiating. There was a large attendance, among those present being a number of employees of the Shawnigan Lake Lumber Company, of which Mr. Elford had for years been manager. Floral offerings were abundant. The honorary pallbearers were Messrs. Richard Hall, P. R. Brown, John Dean, T. Norris, Thomas Shotbolt and E. J. Palmer. The active pallbearers were Messrs. D. E. Campbell, F. J. Jeanerette, I. D. Smith, J. W. Coburn and A. J. Bechtel. Burial was in the family plot in Ross Bay Cemetery.

Like an Italian Palace

The new Cunard Building in Liverpool, Eng., which is constructed of Portland stone, the same material which Sir Christopher Wren employed in the construction of St. Paul's Cathedral, in London, is architecturally similar to the famous Farnese Palace in Rome, but is on an immensely larger scale than the latter. Its length is 350 feet, its width 200 feet and its height 170 feet. It has eight floors above two basements. The total floor room is 50,130 square yards, which is nearly eleven acres.

PROVINCE MAKES NO OBJECTION TO TAX

If Any Legal Doubt Exists as to Right of Dominion to Impose Taxation It Will Not Be Advanced

Whatever difference of opinion there may be as to the legal right of the Dominion Government to impose direct taxation upon the people of British Columbia in the shape of a heavy levy upon incomes as outlined in the recently published new war taxation proposals of the Dominion, and there is a difference among the members of the local legal fraternity, no objection will be made by the Provincial Government. The right of the Dominion under its War Measures Act to levy direct taxation was claimed by Sir Thomas White, Federal Finance Minister, when his proposals were recently submitted to the Ottawa House for the imposition of a stiff graduated impost upon incomes. On the other hand this right is disputed, local legal opinion pointing to the specific provision of the B.N.A. Act to the effect that the right of direct taxation is one specifically given to the Provinces.

This latter phase of the question has been brought to the attention of the Provincial Government but, Premier Brewster stated yesterday, apart altogether from any possible legal status which the Province might have, and he did not venture to express an opinion thereon, the Province did not propose to take any steps to resist the Dominion's claim to legal power to impose its proposed income tax. In fact, if there is any objection made at all it will have to come from some individual whose income tax under the Federal scheme in conjunction with the increased rate which he must pay this year to the Province under the latter's taxation proposals passed at the last session of the Provincial Legislature, is of such proportions that he is moved to protest.

Dominion Tax War Measure

In view of the fact that the Dominion taxation on incomes is certainly a war measure, those whose incomes are large enough to warrant serious protest because of the levy will undoubtedly find that such protest will not prove a popular one or find much sympathy with the great bulk of the people who, unless they are deriving incomes of $3,000 per year or more, will not come within the scope of the Federal levy while, so far as the Provincial tax is concerned, the average man with an income of over $1,500 a year, the amount exempted, has not appeared to be making any protest against paying his share.

Apparently, then, so far as the Provincial Government is concerned the imposition by the Dominion of any such direct tax will not be a subject of much consideration and with the increasing financial burdens of the war, burdens which will undoubtedly be still further added to, the feeling of the members of the Provincial Government appear to be that the present is no time to raise nice legal points even should there be merit therein from the standpoint of the Province.

Provincial Collectors Busy

Incidentally it may be stated that the fact that British Columbians lucky enough to possess the minumum of $3,000 per year income and those of still larger incomes will be mulcted by the Dominion, in addition to the Provincial impost they must meet, will not have any effect upon the Province in getting in the latter charge. The collectors are busy and it is certain that the Province will have first "whack" at the incomes liable under both Provincial and Federal legislation.

In connection with the proposed imposition of the Federal income tax an interesting point arises, one which smacks in the nature of retribution. In the past, officials and office-holders employed by the Federal Government and paid by it have held that they were not liable to the Provincial income tax. Judges, for instance, and many other Dominion-employed and paid individuals have resisted payment on that ground. Will the same argument stand the employees of the Province in good stead? The latter argue that if it works in the one case, it should in the other. For instance, Provincial Ministers of the Crown are doubtless anxious to pay the Provincial impost, but just how anxious they will be to pay Dominion tax also is a question.

No More Broken or Scratched Records

A Grafonola Record Cabinet practically doubles the life of your records. It prevents them from becoming scratched or broken, and keeps them at all times in good order and easy to locate.

These Cabinets are made in all woods, and are beautifully finished in every way. Some are in mahogany, others in golden oak, fumed oak, mission, Circassian walnut, etc. They hold from 60 to 120 records, and are by no means high priced at from

$12.50 to $25.00

Births, Marriages and Deaths

CARD OF THANKS

The family of the late John Parker desire in this way to thank their friends for the kind letters of sympathy and the many beautiful floral tributes sent; also his old friends and the members of Court Vancouver, A.O.F., for their attendance at the funeral service on the 25th inst.

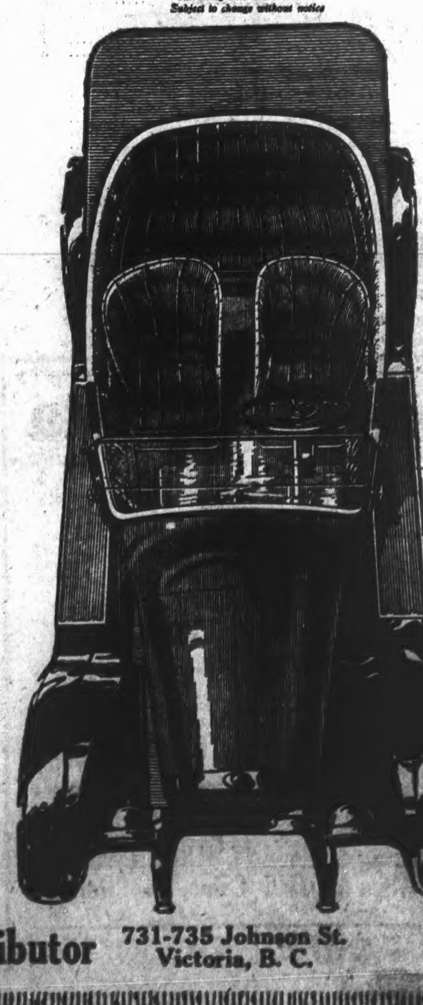

UNSKILLED MECHANICS WANTED BY THE R.F.C.

Lieut. R. G. N. Shaw, in charge of recruiting for the Royal Flying Corps in British Columbia, states that unskilled, as well as skilled, mechanics will be accepted for service. The R. F. C. has every facility for giving complete training to all its recruits, and after a short course at the aerodrome the man who formerly had little or no knowledge of mechanical work or aviation becomes proficient. There seems to be an erroneous impression prevalent that men who have not had experience in workshops are invariably turned down, says Lieut. Shaw.

The Smartest Utility Car Ever Produced

No other smart sport model sells for so low a price.

No other smart sport model can be operated for so little.

No other smart sport model is so easy to handle and park.

Here at last is an economical utility car with snappy, distinctive, pleasing style.

And it's a wonderful performer.

It has a wonder of a motor—smooth—lively—powerful.

Front seats are adjustable forward or back—to suit the driver's reach.

The body is grey—the trim black enamel and nickel—the wire wheels, red.

The smartest economy-utility car on wheels!

Come in and get your Country Club today.

B.C. SCHOOL PUPILS PASS ENTRANCE EXAMS

A. Aileen Aylard, of South Park School, Wins Medal—2,627 Successful out of 3,698 Who Wrote

The results of the High School entrance examination, which was held on June 25, 26, and 27, at 95 centres throughout the Province, have been announced by the Department of Education. The total number of candidates was 3,698, out of which 2,627 were successful in passing. The honor of securing first place rests with Mildred L. Gordon, of the Selkirk School, South Vancouver, who secured 864 marks out of a possible 1,100.

The ten bronze medals donated annually by His Excellency the Governor-General are awarded, as usual, to the ten leading pupils in the ten cities having the highest number of passes. As there are also available this year twenty additional medals kindly donated by His Royal Highness the late Governor-General, ten of these have been given to the ten pupils leading their schools in the various rural municipalities, five to the leading pupils of the rural and assisted schools, and the remaining five to the five leading pupils from the Province at large; but in no case has more than one medal been awarded to any one school. It should be stated, however, that this is probably the last year in which extra medals will be available.

Following are the names of the medal winners:

New Westminster—Helen M. Douglas (Howay), 847.

North Vancouver—Ida Cunliffe (Ridgeway), 825.

Victoria—A. Aileen Aylard (South Park), 817.

Vancouver—Mary A. MacKay (Cecil Rhodes), 815.

Fernie—George D. Quail, 787.

Grand Forks—E. Wilfrid Brown, 780.

Nelson—Marjorie Hall, 733.

Rossland—J. Cyril Wallis, 731.

Revelstoke—I. Doreen Freeman (Selkirk), 723.

Nanaimo—Allan Little, 660.

Rural Municipalities—

South Vancouver—Mildred L. Gordon (Selkirk), 864.

Oak Bay—Reta E. Ormiston (Monterey), 847.

Saanich—Fern D. G. James (Model), 817.

Point Grey—V. Marion Telford (Shaughnessy), 779.

Penticton—W. H. Robertson (Ellis), 768.

Summerland—Hugh MacIntyre, 764.

Delta—Bertha W. Dowding (Ladner), 745.

Burnaby—Stephen T. Moodie (Edmonds), 734.

Langley—John S. Burton (Glenwood), 713.

Kent—Leslie W. McKay (Agassiz), 710.

Rural—

Trout Lake—Muriel Battershall, 788.

Christina Lake—Jessie M. Ferguson, 771.

Clayoquot—Enid Garrard, 752.

Cowichan—G. William Owens, 747.

Tmir—Edith McL. Grobe, 744.

Province at Large—

Kamloops—Grace A. Austin, 815.

Vancouver—Margery J. Lee (Gordon), 814.

Vancouver—Magdalene F. Aske (Fairview), 813.

Vernon—Helen R. Hood, 812.

Kelowna—Flora M. Ball, 800.

Examinations were conducted at the following centres:

"The Digest" Affords You a Wider Outlook
What everyone of us needs is a wider outlook. We are all too prone to gaze out upon life from our own private back window and to imagine that the view we thus obtain is a comprehensive survey of the globe. We need to forget ourselves for a while and to go out into the pure clear air of world-thought and learn what a different universe this is when beheld with a seeing eye. THE LITERARY DIGEST, greatest of news-magazines, puts you in touch week by week with every important event that is taking place within the compass of the Seven Seas. It reports these occurrences to you in the words of the periodicals published on the spot, voicing no views of its own, being content to record for you without comment what the world is doing and thinking, leaving you to form your own judgments. Why not read this week's number?

The Secret of a Good Cigarette

—If a cigarette is made from *Pure* Tobacco —nothing but a high grade of mild tobacco leaves, sun cured and properly mellowed by age;
—if the tobaccos have been skillfully blended so as to bring out all the best qualities in the different grades used;
—then your cigarette will be *cool* and *smooth* both to your throat and tongue and you will be able to smoke practically whenever you want to without feeling any effect from it.

That's the secret. PURE Tobacco—nothing added—naturally cured. Properly matured. Skillfully blended.

In fact *Pure* Tobacco in a cigarette is just as important to your health and enjoyment as Pure Milk, Pure Food, or Pure Water.

Try these *Pure Tobacco* Cigarettes, CRAVEN "A." You'll soon make them your steady smoke.

ANNUAL REGATTA AT SHAWNIGAN TODAY

Visitors to the Lake Will Have to Take Regular Trains—Arrangements Made for Banner Event

The annual regatta of the Shawnigan Lake A.A. will be held today at that popular resort in conjunction with the Flower Show of the Women's Institute. A feature of the show this year will be the sale of articles for the Red Cross, and, as it is expected that the event will draw a great number of visitors, the fund should benefit to a very considerable extent. That there will be a large number of entries for the regatta events is a foregone conclusion, and, given fair weather, the regatta should afford an afternoon's enjoyment to many residents and visitors.

There is only one change from the customary arrangements for conveying visitors to the regatta, and that is an important one.

In former years there has been a special train leaving town at one o'clock. This facility is not being furnished this year, and those going from Victoria today must catch the 9 o'clock train if they go by rail. Following the regatta and show there will be an informal dance held in the club rooms of the Shawnigan Lake Athletic Association, and it is expected that those who are unable to leave town by the morning train will make a point of catching the afternoon train in order to take part in the evening's entertainment, for which a special orchestra has been engaged.

WIGS ON THE GREEN

English M. P.'s Who Come to Blows May Settle Argument in 20-Round Go

LONDON, July 27.—Should Colonel Archer-Shee, M. P., accept the challenge of Pemberton Billing, M. P., to a twenty-round boxing contest at the National Sporting Club there would be a gala night-at that institution and the championship of the House of Commons (presumably with belt) will be no longer in doubt.

The first meeting between the combatants has already taken place with an indecisive result. It was a short, sharp affair. On Wednesday they had a set-to on the greensward outside the House of Commons, when after a brief encounter, both fell to the ground. Then the police arrived and parted the gasping and dishevelled tribunes. What damage the pugilistic M. P.'s sustained is not known, but neither was present at prayers yesterday.

The affair arose out of an exchange of words in the Commons during which Archer-Shee called Billings a cad. Billings invited the colonel to repeat the charge outside the house with the result noted.

Colonel Archer-Shee is said to be dissatisfied with the result, so Billing issued a challenge to the Colonel to fight twenty rounds at the National Sporting Club, the loser to pay a hundred guineas to the Red Cross fund, and the management of the N. S. C., if it thinks fit, to charge admission to those who wish to witness the contest, the whole proceeds to go to war charities. Manager Bettinson, of the N. S. C., said he was sure the club committee would willingly entertain such a contest.

TODAY'S CRICKET

Congregationals—W. Speak J. Collett, C. Speak, T. Howland, G. Austin, G. Silburn, J. Lomas, J. Eason, J. Farris, G. Baker and R. R. Lock. Reserves: J. Fuller and E. Cull.

GARRISON WILL PLAY STAFF AT CRICKET

A cricket match will be played at Work Point barracks on Wednesday next, at 2:15 sharp, between teams representing the District Headquarters' Staff and the Garrison. Major-General Leckie and other officers of the staff will take part.

The band of the Royal Canadian Regiment will be in attendance and play selections during the afternoon, and tea will be served, for which it is proposed to make a small charge, the proceeds to be handed over to the Victoria Patriotic Aid Society.

No World's Series

CHICAGO, July 27.—There is likely to be no world's series this year as a result of the drain on major league baseball players by the draft, B. B. Johnson, president of the American League said here tonight. Tabulation of draft numbers held by players shows that probably 25 men will be taken from the American League. The American League will not play the series if it is handicapped by that serious a loss, Mr. Johnson said.

TWO MONTHS OPEN SEASON FOR GROUSE

Although nothing definite has yet been given out by the Attorney-General's Department on the matter, it is understood that there will probably be an open season on Vancouver Island this year of two months for grouse and deer. Pheasants will, it is expected, be entirely protected, with the exception of six days' shooting in the Cowichan district, and there will be no open season for quail, which have suffered very severely the last two Winters. Ducks will probably be allowed to be shot, starting a month later than usual and ending a month later, geese the same.

LAWYERS VISIT VICTORIA

One Hundred Members of Washington and Oregon Bar Will be Guests of Local Legal Fraternity Today

Today members of the Victoria Law Association will give welcome to a large number of their confreres of the States of Washington and Oregon, who will arrive by the Seattle boat at 1 o'clock, and after a luncheon tendered to them by the local bar will be taken on a motor trip about the city and environs.

It is expected that the party of visiting lawyers will number about 100. They will return to Seattle on the afternoon boat, which will be held over half an hour, leaving for across the Sound at 5 instead of 4:30 o'clock, the regular sailing hour.

The visitors have been in attendance at the annual convention at Seattle of the legal profession of the two States and yesterday closed their sessions. Today's visit to Victoria will be the wind-up of the entertainment features of the convention, the invitation extended by the members of the Victoria bar to visit this city having been welcomed.

The visitors will be met at the boat by a committee and escorted to the Empress Hotel, where the luncheon will be served. They will there be formally welcomed by Hon. J. W. deB. Farris, K.C., Attorney-General, head of the British Columbia bar. A few after-dinner speeches will be made and at the conclusion of the luncheon the party, accompanied by the local lawyers, will be given the motor drive.

Rev. Professor David Smith, M.A., D.D., Professor of Theology in McCrea Magee College, Londonderry, has accepted the Vice-Presidency of the British and Foreign Sailors' Society.

Aim to Make Canada A Greater Producer

Development of Efficiency of Country's Resources Is Object of Investigators Who Reach Victoria Today—Begin Sessions Monday Morning —Motion Pictures of Water Power

Reaching the furthest western point in their nation-wide tour, the three distinguished Canadian educationists who compose the honorary advisory council for Scientific and Industrial Research arrive in Victoria this morning by the early morning boat. The party will remain here intact until Monday afternoon, when two of the members take the steamer Prince George for Prince Rupert, leaving the chairman, Professor A. B. Macallum, to continue the investigations here until Wednesday.

The councillors will be met this morning at about 9 o'clock by members of the local committee, which has been making an inventory of British Columbia's resources for the use of the council ever since it was organized last Summer. The personnel of the local committee includes: Messrs. R. W. McIntyre, chairman; W. Fleet Robertson, Provincial mineralogist; W. M. Brewer, of the Canadian Mining Institute; F. C. Gamble and W. Marriott, of the B. C. Society of Civil Engineers; A. Fraser and C. A. Cornwall, of the B.C. Electric; G. H. Dean, vocational officer, H. C. Gonnason, and H. Pattinson, secretary.

Most Local Committee

In addition to Professor Macallum, those in the party of visitors are Dr. F. H. Adams, dean of the faculty of Applied Science at McGill University; Dr. F. Ruttan, professor of chemistry in the same seat of learning, and Mr. J. B. Challies, C.E., superintendent of the Dominion water power branch at Ottawa, who is acting as secretary. They will hold a consultation with the local committee during the morning and after having luncheon at the hotel will be taken on a tour of the city, the principal point visited being the Meteorological Observatory at Gonsales Heights, where they will be the guests of Mr. F. Napier Denison. On Sunday the big telescope will be visited at Little Saanich Mountain, the various points of interest being explained by Dr. J. S. Plaskett, the director.

On Monday morning the actual business sessions of the council will begin at the Board of Trade rooms, where a number of Victoria business men, representatives of the principal lines of local industry, will present data. This will deal with the progress made and the methods used in developing the various natural resources of this section of the country. The establishment in this city of an industrial laboratory will be urged. Arrangements for making representations before the council are in the hands of a Board of Trade committee, headed by Mr. J. J. Shallcross.

Build Up Canada Trade

It was in June of last year that a committee of the Privy Council was formed to take control of measures for the fostering of scientific development of Canadian industries, in order that, during the present war and after it, they might be in a position to supply all Canadian needs and extend Canadian trade abroad. Under this committee there was constituted an advisory council for scientific and industrial research. The duties of this council are, among other things, to ascertain the agencies that are carrying on investigations relative to the country's industries, to schedule the lines of research in that direction, to co-ordinate those agencies so as to prevent overlapping of effort, and to make themselves acquainted with the problems of a technical and scientific nature that are met with by the productive and industrial interests.

Will Study Resources

The council has also been empowered to make a study of the common, unused resources of the Dominion, the waste and by-products of the forests, fisheries and other industries, to study the ways and means by which the present small number of competent and trained research men can be increased, and to inform and stimulate the public mind in regard to the importance and utility of applying the results of this research work to the processes of production by means of addresses before public bodies.

While in British Columbia the council secured moving pictures illustrating the extent of the natural waterpower. These have been sent to New York and other big Eastern centres as a means of convincing capitalists of this country's potentialities in that connection.

RED CROSS WORK

Musicale and Tea Today

A programme of music and other attractive features has been arranged for the musicale and tea to be held this afternoon in the headquarters of the North Ward Red Cross branch in the Scott Building, corner Hillside Avenue and Douglas Street. All that is needed now to make the affair the complete success it promises to be, is a large attendance of friends of the cause.

The committee requests that all donations of refreshments to the tea should be sent in this morning, if at all possible, to the rooms.

This branch is in receipt of some valuable birds from Australia. They include Australian mocking birds and zebra finches, and were donated by Mr. Ellis S. Joseph for raffling for the funds of the branch.

Parcel Post Sale Note $65

The Hollywood Red Cross branch reports that $65 was realized for the work of the branch at the Parcel Post Sale held under its auspices on Thursday. The ladies of the committee are grateful for the assistance rendered on this occasion by friends, and have thanked Mr. Muir, superintendent of the Presbyterian Sunday School, Wildwood Avenue, for the use of the rooms for the event.

Oak Bay Branch

The work of the Oak Bay Red Cross branch is progressing very well, and the workers are comfortably settled in the new headquarters in the Municipal Hall, which has been placed at the disposal of the branch.

The work bag donated to this branch by the Misses Rita and Helma Adams to be raffled for its funds, was won by Mrs. Ives, 63 Linden Avenue. The raffle realized $7.50.

The committee has acknowledged with thanks the donation of $5 from the St. Mary's Guild, and has expressed its regret that the contribution was inadvertently omitted in the list of acknowledgments issued last month.

Garden Fete at "Cloverdale"

A garden fete will be given this afternoon and evening at "Cloverdale," under the joint auspices of the Lake Hill and Cloverdale Red Cross branches. Every arrangement to insure the success of the event has been made, and a large attendance is anticipated by the committees. In addition to the usual booths there will be out-door competitions, including a tennis tournament, in charge of Mrs. Roberts' orchestra will provide a musical programme during the afternoon and refreshments will be served, also high tea from 6:30 to 7:30 o'clock. In the evening a concert will be given outdoors, to which a number of well known soloists will contribute. An interesting feature of the evening's entertainment will be the address to be given by Mr. Devereux on "Life at the Front."

The **Wellington**
THE UNIVERSAL PIPE

MORE men smoke a Wellington than any other pipe—because they like it better. So will you. The well catches the moisture. The W.D.C. triangle trade-mark on every Wellington means genuine French briar. Get your size and shape and begin to enjoy smoking. At good dealers—75 cents and up.

ARRANGE DETAILS FOR CRICKET TOURNAMENT

Entries Limited to Eight Teams—Ten Interval Will be Abolished—Umpires Are Asked For.

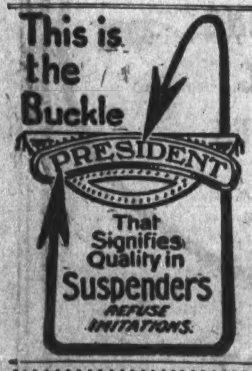

A meeting of the committee in charge of the arrangements for the projected cricket tournament to be held next month took place last night, all members of the committee being present, and the following details with regard to the play being arranged. The entries will be limited to eight teams; no player playing for one team will be allowed to play for any other during the tournament; M.C.C. rules to prevail, and six balls to be bowled to the over.

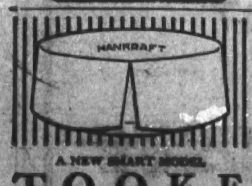

It was also arranged that any disputes arising from the games shall be referred to the committee, that games shall start at 1:15 and that any team not being ready to play at that time the opposing team shall have choice of innings, and that there shall be no tea interval.

The price of a ticket to admit to any, or all of the games will be twenty-five cents and each home club will be expected to make the necessary arrangements for tea to be sold for the benefit of the Red Cross.

The Colonist has been requested to ask that any gentlemen willing to act as umpires will send in their names to the committee.

The committee, which is composed of Messrs. Roberson, Lethaby, Ackroyd and May, will meet again on August 2.

LEVIATHAN RAMMED BY PACIFIC LINER

The Canadian-Australian liner which passed through this port inward bound late Thursday evening experienced, on its last southbound voyage, an incident quite unique in respect to vessels of so great tonnage on the Pacific. When nearing Auckland the ship collided with a live whale while traveling at top speed. The leviathan was struck fair in the middle, lying apparently asleep and almost wholly submerged across the course of the steamer. The impact was felt throughout the huge liner and created great excitement until the cause was located.

The whale was by this time being swept along through the water at a terrific rate, its great bulk being firmly fouled on the steamer's bows. It was necessary to bring the vessel to a full stop before it slipped away into the water and sank from sight. The whale was estimated to have been fully eighty feet in length. The body had been almost completely bisected by the impact of the bows.

Restoring Discipline

PETROGRAD, July 26.—The Provisional Government today decided to establish on all the Russian fronts courts-martial composed of three officers and three soldiers each. This follows the restoration of the death penalty in the army.

WHY DOMINION TIRES ARE GOOD TIRES

DOMINION TIRES present four features that make them distinctive in Canadian tire construction:—

First—in Economy—in greater mileage.

Second—in Pleasure—in smoother riding.

Third—in Convenience—in freedom from tire troubles.

Fourth—in Satisfaction—in having tires that give such service.

DOMINION "NOBBY TREADS" are the most economical in the end, just as they cost more at first. They are "the Aristocrats of the Road" as far as smoothness and comfort are concerned; are as nearly puncture-proof as any tire can be, and give a mileage that sets the long-distance record for Canada.

DOMINION "CHAIN TREADS" with their anti-skid cup-shaped links, are worthy of a place on any car, no matter how luxuriously appointed. In their price class, they are the recognized leaders, and acknowledge no superior at any price, except Dominion "Nobby Treads".

DOMINION TIRES are always the best tires to buy.

GET RECORD PRICE FOR SCHOONER AMAZON

Vessel Will Be Used for Nitrate and Timber Trade to South America—First Trip Should Net $140,000

The high water mark in prices for wooden vessels was reached when the schooner Amazon, well known all along the Coast, was sold at San Francisco on Thursday by A. F. Thane & Co., to Mobile, Ala., interests. The price was $150,000.

Higher and higher prices have been the rule lately for all kinds of craft, and, from indications, the limit is not in sight. The Amazon will be used by her new owners in the trade between the Gulf of Mexico and South America, probably Argentina. The schooner has a capacity for carrying 1,400,000 feet of lumber and is now in good shape, as was attested recently by a voyage from Puget Sound to the nitrate ports of Chile. She was built in 1902, is 11,167 tons, gross, 209 feet long, 42 feet beam and 19 feet deep.

Will Carry Nitrate

The new owner of the vessel has a cargo of nitrate from Callao to the Gulf at -25 a ton. After that he has a cargo of lumber to the River Platte. A conservative estimate of the first round voyage of the vessel shows a net profit of $140,000. This will be well within three months.

Another sale recorded at San Francisco is that of the steam schooner Arcata, sold by H. F. Lane to Capt. A. W. Reed on private terms.

SINALOA, LIMPING, RESUMES VOYAGE

Put in Repair at Port Orford, Following Grounding at Cape Blanco, Norwegian Liner Steams Down Coast

The Norwegian steamship Sinaloa, which went ashore at Cape Blanco on June 15 and was subsequently floated, has resumed her voyage towards San Francisco. She passed here early in June for the Golden Gate carrying a cargo of nitrate.

Temporary affairs were effected at Port Orford on the Oregon coast after the steamer was salvaged from the Cape Blanco reef, and she is now reported to be making six knots with the pumps working well. Part of the cargo was removed at Port Orford.

UNITED STATES WILL USE INTERNED SHIP

The former German steamer Solf, which was seized by the Pago Pago naval station authorities on the outbreak of war between the United States and Germany, has been assigned to the United States navy and is being used as a station ship at the Samoan base, according to advices received here yesterday.

The Solf was built only a few months before the European war started in 1914 and she sought refuge in Pago Pago harbor. She was to have been used in the trading service between Apia and Pago Pago.

F. NAPIER-DENISON, Superintendent.

The Observatory, Gonzales Heights.

LINLITHGOW AGAIN CHANGES REGISTRY

Former Chilean Bark, Now U.S. Property, Sold to Spaniards—Was Launched Under British Flag at Glasgow

Sold to Spanish interests, the full-rigged United States sailing ship Katherine, formerly the Chilean ship County of Linlithgow, and well known at this port, has been ordered to proceed from a United States port to Cadiz, Spain. She will change her registry for a third time, raising the merchant flag of Spain, one of the few remaining neutrals in the world war.

The Katherine was last here in July, 1916. She loaded lumber in Port Angeles and Mukilteo for Sidney, Australia, and put to sea, bound for the Antipodes, on July 14. From Australia she went to the west coast of South America and loaded a cargo of nitrates.

Launched in Glasgow as the British ship County of Linlithgow, the vessel, after long service under the British flag, was sold to Chilean interests and her registry was changed. She was subsequently bought by Comyn, Mackall & Co., and placed under United States registry.

NOTICE TO MARINERS

British Columbia

(145) Vancouver Island—East coast—Baynes Sound—Maple Spit beacon destroyed—Spar buoy placed.

Position—Extremity of the spit extending northward from Maple Point, Baynes Sound.

Beacon destroyed—Maple Spit pile day beacon has been destroyed.

Buoy to be placed—A buoy will, without further notice, be placed to mark the extremity of Maple Spit, heretofore marked by the day beacon.

Description—Wooden spar.

Color—Black.

N. to M. No. 60 (145) 9-7-17.

Authority—Departmental records.

Admiralty charts: Nos. 333, 580, and 1917.

Publication: British Columbia Pilot, Vol. 1, 1913, page 331.

List of Buoys and Beacons in British Columbia, 1916: No. 505.

Departmental File: No. 32418.

Panama Canal

(127) Cristobal Harbor—Changes in buoys.

Three gas buoys, red, exhibiting fixed red lights, focal plane 8 feet, were established May 31, 1917, to mark the southern side of channel line, approach to coaling pier, Cristobal Harbor. Three of the four nun buoys were discontinued.

Caution should be exercised in not going beyond the buoy nearest the coaling pier, as there are about 12 feet of water 15 feet outside of the channel.

The least water at any of these buoys is 38 feet.

A. JOHNSTON, Deputy Minister.

Department of Marine, Ottawa, Canada, 9th July, 1917.

NIPPON BOATS WILL GO TO LIVERPOOL

The British Government has come to an arrangement with Japan by which European liners of the Nippon Yusen Kaisha will extend their service to Liverpool. Though the European service of the company is of over twenty years' standing, the calls in England have been confined to London, Middlesborough and other parts of the East coast.

The time used is Pacific Standard for the 120th Meridian West. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. Where blanks occur in the table the tide rises or falls continuously during two successive tidal periods without turning. The height is in feet and tenths of a foot above the average level of lower water.

Railway Wages in France

PARIS, July 26.—The Government has given orders that all employees of railroads will be given an increase in wages of at least $84 annually because of the high cost of living.

WIRELESS REPORT

By Government Wireless

8 p.m.

Point Grey—Rain; calm; 29.85; 64; sea smooth.

Cape Lazo—Rain; S.E.; 29.80; 53; sea smooth; at 12:35 a.m. spoke Princess Alice, abeam, southbound, at 9:15 a.m. spoke Princess Beatrice, abeam Cape Mudge, northbound, at 1:30 p.m. spoke Camosun off Union Bay, northbound.

Pachena—Fog; rain; S.E., light; 29.75; 53; sea smooth, dense.

Estevan—Rain; calm; 29.60; 54; sea smooth.

Alert Bay—Rain; calm; 29.60; 54; sea smooth.

Triangle—Fog; rain; calm; 29.88; 50; dense; at 4:30 a.m. spoke Princess May off Ivory Island, northbound; at 7:40 a.m. spoke Venture off Pine Island, northbound.

Dead Tree Point — Rain; calm; 29.72; 57; sea smooth.

Ikeda—Rain; calm; 29.80; 49; sea smooth.

Prince Rupert—Rain; S.E.; 29.58; 55; sea smooth; Princess Sophia passed in at 12:45 p.m., northbound; Prince Albert passed in at 2:20 p.m., northbound; Prince Rupert passed out at 2 p.m., northbound.

B.C. AND ALASKA RUN OF SALMON IS HEAVY

Record Activity Reported in Northern and Southern Waters — Industry Suffers Through Labor Shortage

The run of salmon in Alaska and the inside waters east of Vancouver Island is reported to be exceptionally heavy this year. There is every indication of a good run on the Fraser, as good as any of the big years.

Every day is growing better in the waters adjacent to English Bay, just east of the mouth of the Fraser. Wednesday was the record day of the season. One boat took 104 fish and practically all of the 100 boats at the Great Northern Canneries were out. Two hundred cases were packed, each containing 96 one-half pound cans.

Heavy Run in Alaska

Reports reaching here indicate that the salmon run in Southeastern Alaska is one of the largest in years, and the pack of the Hawk Inlet, Hoonah and Funter Bay canneries will break all records. These canneries have each packed approximately 60,000 cases and the run of salmon continues enormous. All the canneries have scowloads of fish alongside the piers waiting to be handled, and the traps are reported full of salmon. The canneries are facing a scarcity of labor, and the race to "put tin around the salmon" on Prince William Sound had attained unequalled proportions this season.

Fishermen Conscripted

Anyone who has the appearance of a fisherman or looks strong enough to pull a net is in danger of being put to work if he shows up the vicinity of a cannery. There is no night in those latitudes and the men work almost continuously, sleeping at short intervals between tides while waiting to overhaul the gill nets.

Several of the canneries expect to go over the 100,000 case mark, and the great Carlisle cannery at Cordova, which packed 125,000 cases last year, expects to get through with easily 200,000 before the present season is through.

SIGHT BURNING CRAFT IN THE MID-PACIFIC

Coast shipping men are speculating as to the identity of a three-masted vessel reported to be burning in mid-ocean.

On the way from Frisco to Apia, Samoa Islands, the United States steamer Ottillie Fjord on June 19 sighted a vessel ablaze in 1 degree 50 minutes north latitude and 150 degrees 11 minutes west longtitude. A watch was kept all day for signs of life on the unfortunate craft. No one was seen. She was a three-master, and was at an angle in the water, and it could not be determined whether she was schooner rigged or square rigged. The masts laid forward and the hull had been burned down to the chain plates. The fire had apparently started some days before the Ottillie Fjord sighted the vessel, as the inside was all burnt out.

LAND REGISTRY ACT
(Section 24)

In the Matter of Lot 22, of Sub. Lot 79, Fernwood Estate, Victoria City, Map 381.

Proof having been filed of the loss of Certificate of Title No. 4103F, issued to Marion Swan on the 16th day of April, 1913, I hereby give notice of my intention, at the expiration of one calendar month from the first publication hereof, to issue to the said Marion Swan a fresh Certificate of Title in lieu thereof.

Dated at the Land Registry Office, Victoria, B. C., this 19th day of July, 1917.

Sydney Child, Victoria, B. C., Solicitor for Applicant.

[illegible] S. STOKES,
Deputy Registrar-General of Titles

Provincial Royal Jubilee Hospital, Victoria, B.C.

The Directors invite tenders for supplying groceries, butcher's meat, ham and bacon, bread, milk, fish, poultry, fresh eggs, for one year dating from August 1st, to July 31st, 1918.

Tenders to be marked "tender for supplies," addressed to the Secretary and to be in not later than 12 noon, Monday, July 30th.

The lowest or any tender not necessarily accepted.

G. T. CARVER,
Secretary.

July 23rd, 1917.

SYNOPSIS OF COAL MINING REGULATIONS

COAL mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years, renewal for a further term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5, which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, rescinded by Chap. 27 of 4-5 George V. assented to 12th June, 1914.

For full information, application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY
Deputy Minister of Interior

N. B.—Unauthorised publication of this advertisement will not be paid for.—83575.

TO CONTRACTORS

Tenders are invited for the erection of nine houses at James Island. Plans and specifications may be obtained from the undersigned on making a deposit of ten dollars. The lowest or any tender not necessarily accepted.

WINNIPEG GRAIN MARKET

WINNIPEG, July 27.—Buyers of cash wheat and oats were again much in evidence today, but the offerings were far short of the requirements. Several lots of wheat changed hands at a $2.45 basis. Nos. 2 and 3 C. W. oats were in good demand, but other grades were off. The flax market was quiet. No. 1 N. W. sold at July prices. The futures greatly increased their strength, but the cash situation remained easy. There was little interest in barley owing to lack of buyers. The futures were stronger and higher, partly in sympathy with southern markets. October wheat closed 3⅞c higher. July oats closed ⅝c higher, October 1⅜c higher, and December 1⅝c up. July flax closed 9c higher, October 5¾c higher, and December 1⅝c up. Barley closed unchanged.

MONTREAL STOCKS

(Supplied by Burdick Bros. & Brett, Ltd.)

MONTREAL, July 27.—The local market opened dull and continued so during the forenoon session. During the late trading a buying movement set in which carried the more active stocks up one to four points, the latter in Quebec Railway. Dominion Bridge gained three points and Steel of Canada closed two points above yesterday's last. There was no special news marketwise. It was reported that money was a little easier and this, together with the strength in Wall Street late in the day no doubt had something to do with the buying in this market. Earnings of nearly all Canadian companies are running at top notch. The modification of the excess profits tax should help the market. There will be no session of the Montreal exchange tomorrow.

COVERING BY SHORTS CAUSES SLIGHT RALLY

Supplies Most Prominent Factor in Upward Movement Near Close — Dealings Are of Small Volume

NEW YORK, July 27.—Covering of shorts in steels and war shares generally contributed as much as anything to the comparative strength of today's dull and very restricted stock market. The movement, in most essentials, was a replica of recent week-ends, when the bear faction seemed to find it expedient to settle outstanding commitments.

Metals, oils a few equipments, notably Baldwin Locomotive and Virginia Iron, shippings and such specialties as Industrial Alcohol, Malting preferred, and Distillers figured among the gains of 1 to 3 points. General Motors, Studebaker, and Maxwell and utilities of the class represented by Third Avenue and American Telephone Company, featured the reverse side at recessions of as much, rallying in part later.

St. Paul lost much of its gains of the previous day under pressure, and other rails rose and fell within narrow limits, except Canadian Pacific and Western Maryland preferred. The former gained a point, and the latter reacted almost 5. Union Pacific ignored its June statement, which disclosed a net gain of $979,000.

The market was at its best in the last hour, that being the only broad trading period of the session. United States Steel led the rise in active stocks at 122¾, closing at its best, a net gain of 1⅛.

Total sales, 337,000 shares.

Total sales of bonds (par value), $2,947,000. United States bonds, old issues, were unchanged on call.

ANNOUNCEMENTS

Under the auspices of the C. E. Union, a garden party will be held at the residence of Mrs. David Spencer, 630 Moss Street, Saturday afternoon and evening. A programme of sports has been planned for the afternoon in addition to tennis, bowling and music and in the evening stereopticon views and music by Mrs. Robert's orchestra. Admission 10c. Proceeds to Military Y. M. C. A.

Owing to the present high cost of living and the inducement that the journeymen barbers have in the surrounding cities, the master barbers are obliged to raise the prices of shaving to 25c.; haircutting, 50c; children, 35c; to come into effect July 30.

A Very Late Delivery of British Made Flannel Sports Suits, Pants and Blazers On Sale at Most Reasonable Prices

A shipment that should have reached us about three months ago—it was held up for shipping space; therefore only reached us on Wednesday. However, there is at least two to three months of Summer weather before us, and many men have yet to enjoy their Summer vacation, so that the demand for these garments will be great.

Each garment is beautifully tailored from British-made flannel in shades of grey—the most favored material and color for all outing and sports wear. Individual prices are:

Flannel Suits, two-piece style; coat finished with patch pockets; pants with belt loops. Very smart and stylish. A suit **$12.95**

Grey Flannel Pants, in two shades, finished with belt loops and buttons inside. A pair **$4.75**

Cream Serge Outing Pants, a pair **$5.95**

Fine Striped Outing Pants, a pair **$4.75**

Striped Serge Outing Pants, a pair **$5.95**

Separate Sports Coats, of Donegal and Harris tweeds. Very stylish and superior grades. Each **$10.95**

Boys' Grey Blazers **$4.95**

Boys' Shorts, to match, a pair **$1.95**

Boys' White Flannel Pants, a pair **$2.95**

Boys' White Drill Pants, a pair **$1.50**
